Dr. John Lynch Succumbs to Heart Attack

Dr. John Leonard Lynch, 55, Salem osteopathic physician for the past 28 years, died early Wednesday morning of a heart attack at a local hospital.

He had been hospitalized for the past 10 days. Dr. Lynch was past president of the Willamette Valley Osteopathic association and had been a member of American Legion, Capital post 9.

Dr. Lynch was born at Ledgerwood, N.D. in 1894. He came to Oregon at the age of 16. After graduating Salem high school and attending a normal school here he taught school for one year.

He graduated from the College of Osteopathic Physicians and Surgeons in Los Angeles, Calif., in 1917. Entering the army he saw service in World War I. He practiced his profession in Eugene until 1922 and then moved to Salem.

The doctor is survived by his wife, Mrs. Clare Winkler Lynch; son, Richard Lynch, a Willamette university student; a daughter, Mrs. Lyle Parke; a stepdaughter, Mrs. Nap Roque, jr., and a granddaughter, all of Salem. He also is survived by two sisters, Mrs. Guy Haskinson of Eugene and Mrs. Anna C. Tarr of Cottage Grove, and a brother, Col. Harry Lynch (Ret.) of Vancouver, Wash.

Funeral services from Clough-Barrick chapel will be held Friday at 10 a.m. with interment in Belcrest Memorial park.

Polled Hereford Group to Meet
R. B. Sears, president of the Oregon Polled Hereford association, announced that its membership will meet August 15 at 8 p.m. in the Salem Chamber of Commerce. Beth Sellwood Awarded Radio Program Prize

Beth Sellwood of Salem, president of the Oregon Chin-Up club, received an award this week from a radio program for her work with the club, an organization of physically handicapped persons.

The award, an electric blanket, was made on the Tell Your Neighbor program over the Mutual Broadcasting system last month. Miss Sellwood's name and an account of the Chin-Up Club aims were sent into the program by a Mrs. Charles Fox of Grand Junction, Colo.

Mrs. Fox is a stranger to Miss Sellwood.

New Uniforms Approved for Salem Police

The attire of Salem police officers will change gradually as the result of new uniforms approved Wednesday by Chief Clyde A. Warren.

Most noticeable changes are dark blue shirts for summer wear and Eisenhower-type jackets. The latter will replace body coats of the standard cut, while shirts currently worn by most officers are of a lighter blue.

Other changes include overcoats without epaulets or brass buttons, and new caps with removable tops for ease in dry-cleaning. The plain overcoats were selected, Warren said, so that members of the force may wear them off-duty with civilian clothes if they desire.

Officers will purchase the new styles as replacements become necessary and will be given time to get more wear from present uniforms, Warren said.

About half of our food supply is preserved in tin cans.

This is another big reason why we're sure LUCKY STRIKE MEANS FINE TOBACCO!

Tests made by America's largest cigarette research laboratory scientifically help
Lucky Strike buyers select the fine tobacco that goes into Luckies!

YOU SEE HERE the largest and most complete laboratory of its kind operated by any cigarette manufacturer in America.

For many years Lucky Strike scientists have delved into cigarette research on an extensive scale. Out of this has grown an elaborate system of quality control. Every step in the making of Luckies—from before the tobacco is bought until the finished cigarette reaches you—comes under the laboratory's watchful eye.

As you read this, a constant stream of tobacco . . . samples from every tobacco-growing area . . . is flowing into the laboratory in Richmond, Virginia. These samples are scientifically analyzed, and reports of their quality go to the men who buy at auction for the makers of Lucky Strike.

Armed with this confidential, scientific information—and their own sound judgment—these men go after finer, lighter, milder tobacco. This fine tobacco—together with scientifically controlled manufacturing methods—is your assurance that there is no finer cigarette in the world today than Lucky Strike!

This man knows where fine tobacco grows. Here is one of Lucky Strike's tobacco-buying supervisors gathering sample leaves from a curing barn. Such samples are obtained from every tobacco-growing area and sent to the laboratory for pre-market analysis. No wonder — L. S./M. F. T. — Lucky Strike means fine tobacco!

This scientist knows how to test tobacco. In our Tobacco Control Division, samples sent to the laboratory are subjected to scores of analyses to determine smoking quality. This vital testing, both before and after tobacco is purchased, has been conducted for years . . . still another guarantee that Lucky Strike means fine tobacco.

Reports received. The laboratory sends results of the analyses to the buying supervisors. This information helps the buyer go after finer, lighter, milder tobacco for Lucky Strike. So the judgment of the buyer at tobacco auctions is combined with modern science at the laboratory to assure you that Luckies are a finer, milder cigarette.

We know:
LUCKIES PAY MORE
for fine tobacco
(millions of dollars more than official parity prices)

We are convinced:
LUCKIES PAY MORE
for cigarette research

So, for your own real deep-down smoking enjoyment
Smoke a Lucky!

Lucky Strike's fine tobacco and constant research combine to give you a finer cigarette. Prove this to yourself Buy a carton of Luckies today.
