

Firm Footing For Small Fry

By Dorothy Roe
Associated Press Fashion Editor

It is important to have your child's feet measured at the beginning of the school year and fitted with proper shoes, says Dr. Joseph Lelyveld, chairman of the national foot health council. He points out that a child's feet may grow more during the three months of summer than all the rest of the year, because of increased activity, going barefoot and wearing loose-fitting sandals.

Dr. Lelyveld recommends shoes that tie or strap across the instep for school year; to give proper support to the instep and arch. To be sure your child's shoes are fitted properly, he gives the following rules:

1. Have both feet measured for length and width, with each foot bearing weight. Correct size fits the larger foot.
2. See that the widest part of the foot fits into the widest part of the shoe at both big and little toe joints.
3. To test correct fit, have child stand with full weight on his toes. If shoes are long enough there will be a space of one half to three quarters inch between end of big toe and tip of shoe. Correct width allows leather to be drawn slightly together between the fingers.
4. As a final check have your child walk around the store on tip toes.

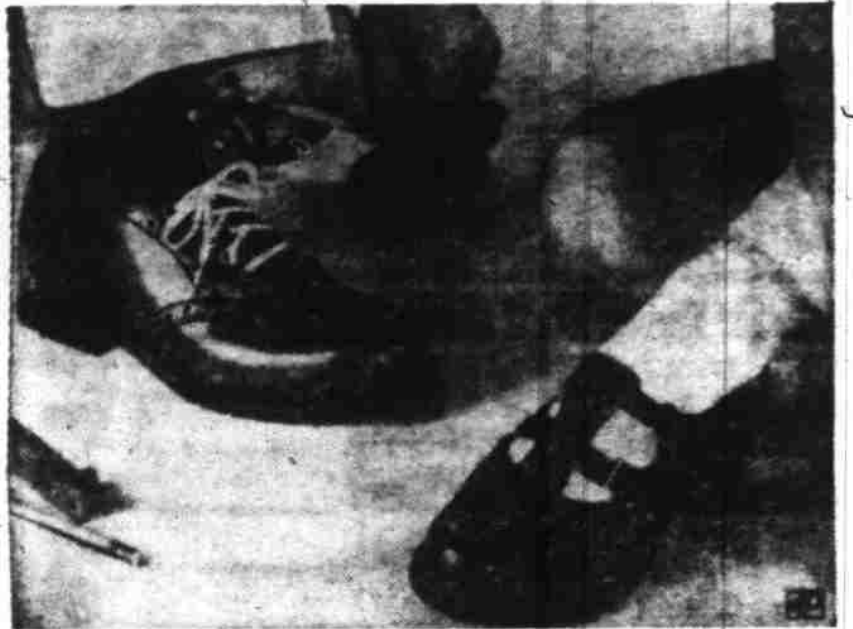

Sound footwork . . . Boy's monk strap shoe in calf; girl's shoe in navy reversed calf with red trim.

Head of the class . . . Brown calf ghillie laced with cord, punchwork trim.

School special . . . Two-strap shoe in reversed calf with crepe rubber sole.

Sturdy footprints . . . Boy's shoe in brown calf with braided instep, heavy yellow laces, extended sole; girl's two-strap sandal in red calf, fringed tongue.

NOVELTY IN A PURITAN . . . Tweed Rayon with belted waist, tab pockets, lots of buttons and trim in two-tone faile. For you in Black or Green. 10.95

Johnson's Store for Ladies Salem, Oregon

Silverton—Mrs. Peggy Scott and her two sisters, Mrs. Helen Hammond of Portland and Mrs. Gertrude Smith of San Jose, were weekend guests of Mr. and Mrs. Earl J. Adams at their McClaine street home. All three were raised in Silverton. Mrs. Smith taught piano here at one time for several years and is now teaching in San Jose. Mrs. Scott moved to Portland in July.

Brush College—Monte Harris was surprised Sunday with a birthday party on his 47th birthday. Those attending were his sister, Mrs. Sarah Sandusky, Lester Sandusky, Mrs. F. Singer, Mr. and Mrs. Joe Simonyi, Mr. and Mrs. Mike Focht, Mr. and Mrs. Ferdinand Bayer, Mr. and Mrs. Clifford Shrauger, David Bayer, Mrs. William Klipper, Anna Bayer, Mrs. Monte Harris, Paul Harris and Mr. and Mrs. L. E. Pearson.

On Etiquette

By Roberta Lee

Q. In a business office, is it necessary for a man to rise when a woman enters on business?

A. If she is an employee of the same firm, it is not necessary. However, if she is from another firm calling on a business matter, he should rise.

Q. Is it all right to have letter paper and envelopes of different color and thicknesses?

A. The envelope may be of slightly thicker paper than the letter paper, but the colors should be the same.

Q. Does one use his napkin to remove a meat bone or fish bone from the mouth?

A. No; use the thumb and forefinger, and place the bone on the edge of the plate.

"NONE SO BLIND . . . AS THOSE WHO WILL NOT SEE" that the time has come when glasses would be a decided benefit. Be good to your eyes . . . step up your good looks with smart, modern glasses. Put away your magnifying glass and enjoy life again!

White Shrine Has Annual Picnic

Sixty members and their families attended the annual picnic of the White Shrine of Jerusalem on Sunday afternoon at the Garden Road home of Miss Mabel Savage, who is a sister of Mrs. Albert Rasmussen, noble prophetess of Williamette Shrine.

Tables were arranged under the trees, from which hung baskets of fuchias, and bordering the garden were begonias and mixed summer flowers. After the dinner the guests played games and viewed the garden. The committee in charge included J. H. Booth, Kenneth Caughell, Charles Morgan and Mrs. Bess Shelton.

A special meeting of the Shrine will be held Wednesday, September 14, and the first regular meeting of the fall will be September 19.

Vacationing at Neskewin this week are Mrs. Carlton J. McLeod and children, Franca and Scott, Miss Crystal Huntington and Miss Janet Lindley.

A special meeting of the Labish Garden club will be held Thursday afternoon at 2 o'clock at the home of the club president, Mrs. B. E. Madill, with Mrs. C. Quartier as co-hostess.

Strike Closes South Oregon Railroad Line

KLAMATH FALLS, Aug. 29.—(P)—A strike closed an entire railroad line today, but only in Klamath county would you notice it.

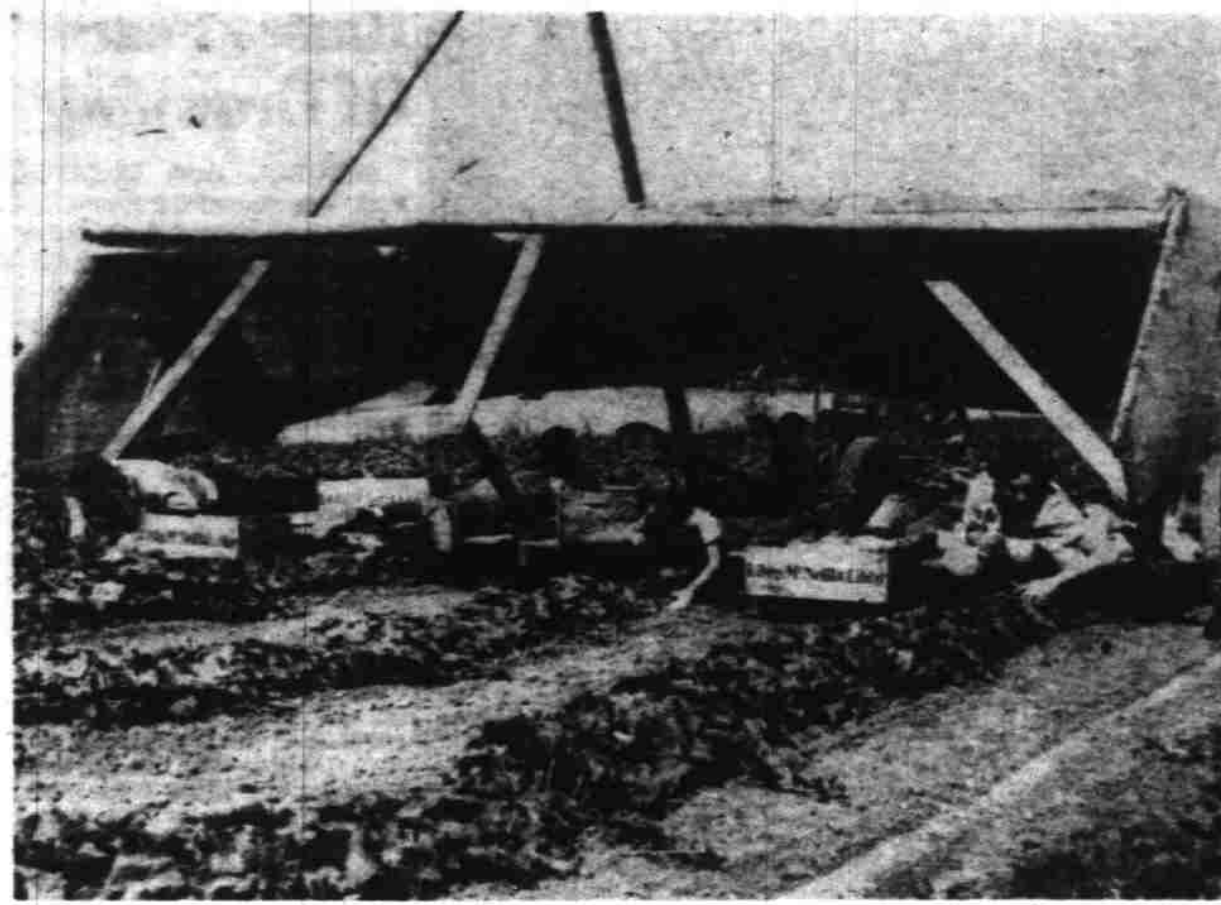

The line is the 65-mile-long Oregon, California and Eastern. It has 13 operating employees, all of whom walked out after a deadlock over grievances.

An issue over an injury to one worker, a request for a rest period between runs and pay claims for special work hours were at stake.

The line runs from Klamath Falls to Bly, entirely within Klamath county. There are two freight trains daily, carrying cattle, lumber and logs. The Great Northern and Southern Pacific own the line.

Union officials said there was no chance of the strike spreading to the Southern Pacific line here unless one of the parent companies attempts to operate the O.C. & E. with other crews.

Prather's Practically Perfect Pickle Picker

WOODBURN — This device made by Rolan Prather of Woodburn appears to take much of the drudgery out of picking cucumbers. It is pulled along the rows by a small garden tractor with a countershafting to give it a very slow speed. The pickers lie full length on pads and pick directly into log boxes. The frame supports a canopy as protection from the weather. Those on the picker are Chet Varnes, Rolan Prather (left toward camera) who operates the tractor as well as picks, Roger Prather, Neal Prather and Mrs. Prather. Refreshments are taken right along on the machine. Prather plans to try out the machine or a similar one for harvesting strawberries.

Copter Saves Injured Pilot

DESERT HOT SPRINGS, Calif., Aug. 29.—(P)—An air force helicopter, flying in 115-degree temperature, today saved the injured pilot of a jet fighter plane which crashed into a mountainside.

Robert E. Farley, 25, second lieutenant from Selah, Wash., received deep feet and face cuts as he hit after bailing out of his plane in the San Bernardino mountains, 21 miles east of Palm Springs.

He was stranded at 3800 feet elevation, but keen-eyed searchers spotted him and dropped water and supplies. A March air base helicopter, piloted by Lieut. Jack Batt, of Kansas City, Mo., set down in a clearing, took Farley aboard and flew him to Indio for hospitalization.

McMinnville Substation Contract Awarded

PORTLAND, Aug. 29.—(P)—A contract to build the east McMinnville substation and control house was awarded by Bonneville power administration today to Teller Construction Co., Portland, on a bid of \$74,790.

The substation will provide increased service for the town of McMinnville, and power for a third line from McMinnville to Salem.

SPANISH INVADERS MIAMI

MIAMI, Fla.—(P)—Because of the increasing number of Latin Americans who come to Miami to shop, merchants are employing more and more clerks who speak Spanish. A survey shows that 59 of 85 downtown Miami shops employ at least one Spanish-speaking clerk and several stores have all bilingual clerks.

Pearson Sees Demo Victory

KLAMATH FALLS, Aug. 29.—(P)—Oregon democrats can win two congressional seats and a majority in the state legislature at the next election, State Treasurer Walter Pearson said yesterday.

Speaking at the Klamath County democratic picnic, Pearson said the democrats also could win the governorship when that office comes up for election.

State Sen. Austin Flegel of Multnomah county, expected to run for U. S. senator or governor, called for democrats to campaign for the Columbia Valley administration, labor and social rights. He warned that the party "hasn't any room for poor candidates, for dishonesty or incompetence."

Visit Reveals Germany Strides Made Enroute to Full Recovery

Conditions in Germany are improving but they still have a long way upward to go to near the high level in the United States. Paul Schaad, Salem route 2 resident, relates, after a two months visit there. Schaad, lone member of his family to immigrate to the U. S., left Salem June 13 to visit his mother, four sisters and two brothers. He returned August 13. He traveled by train to New York then by air to Frankfurt.

5 Drownings Occur in State Over Week End

By The Associated Press

Five Oregonians drowned over the week end, three of them juveniles who were swimming.

Dick Beittler, 15, Hood River valley, drowned in the Columbia river at Rowena; Fred Betteridge, 17, Portland, drowned in the Clackamas river; and James Ancel, 13, was carried away by the undertow in the ocean at Waldport.

A capsized boat doomed the other two — Clyde Boylan, about 50, Portland, and Mrs. George Morton, 20, Huntington. Their boat tipped in the Snake river near home. Eric West, Weiser, Idaho, another occupant of the boat, grabbed Mrs. Morton and started swimming toward shore. He lost consciousness, though, and when he came to on the bank, the woman was gone. Her body was recovered later.

In the Stuttgart area where he spent most of his visit, Schaad said the people were making great strides in rehabilitating the country. Though major portions of such larger cities as Stuttgart and Hamburg were badly damaged by bombing, housing has largely been replaced.

He was impressed by the contrasts between the workers wages and the cost of living. A semi-skilled worker is paid about 50 marks a week or the equivalent of \$15 in U. S. currency. It takes that much to buy a pair of shoes. Despite the unbalanced wage-cost standards, Germany hopes to eliminate most of the rationing by this winter. Rationing has already been lifted on most items except food, Schaad said.

BLUEJAY STOPS BREAKFASTS
MIAMI, Fla.—(P)—A bluejay's hunt for a quiet nesting place caused a number of residents in one section of the city to miss their morning coffee. The jay, with housekeeping in mind, picked its way into a power transformer.

It took several hours for power repairmen to discover the electrified bird and the reason for the power failure.
