The decision forbids payment of any 'profits from government operations to the struck stevedoring companies. The special dock law had provided that all profits, minus one-fourth of one per cent, be paid to the companies for use of their facilities.

The judges also held that the territory could not apply the dock law in any way that would deny the union's exercise of federal rights or to deny the union's right to publicize its view of the law.

the expenditure of the state armory fund created by the 1941 legislature, Attorney General George Neuner ruled Monday.

The 1941 law makes the fund available whenever the board of control shall determine there is sufficient money in the state treasury available therefor. It also directs that the money appropriated for armories shall be expended under the general staff of the Oregon national guard, Neuner said.

The board of control, at a recent meeting, authorized expenditure of the remaining \$60,000 in the original \$100,000 state armory fund. Reseasest for the original \$25c lb. on, 12 month growth.

munity chest for the second successive year.

Hazen observed that persons who donated to chest drives when they were poor also donate when and if they become wealthy. Those who failed to donate when they felt they could not afford to do so, also fail to donate in later years when they can afford sizable contributions, he added.

Success of Salem's drive, Hazen sald, will depend on selling the fact that everyone should contribute some amount because everyone benefits in some way.

Hazen, who is president of Benjamin Franklin Savings and Loan of Portland, addressed local worses at a noon lunchery in the series of the second successive year.

Ryegrass Yield Increase in State Forecast

PORTLAND, Aug. 29 - (AP) -Ryegrass yields will be higher in Oregon this year, but legume cover crop seeds will be down, the federal crop reporting service said

The ryegrass crop was estimated at 49,000,000 pounds, compared with last year's 34,600,000.

A severe winter and late spring frosts were blamed for a cut in legume cover crop seeds to 113,000-000 pounds, which nevertheless represents 68 per cent of the nation's supply.
