## September Birthdays Set for Two Monmouth Nonagerians

By Beulah Craven  
Statesman Monmouth Correspondent

MONMOUTH—Two Monmouth nonagerians are observing birthdays this month. Both are native Oregonians and have spent their entire lifetimes in this state.

Mrs. Addie Shore was 91 on September 9. She was born near Albany in 1858, the daughter of John and Nancy Ivy, pioneers of Linn county. She was married to Samuel Ira Shore, also a native Oregonian, in 1881, and they made their first home at Scio. In 1903 they moved to Monmouth.

Widowed in 1907, Mrs. Shore faced the future with four young daughters, a modest home, and the necessity for earning a living for her family. She worked hard for many years rearing and educating her girls, giving them the advantage of a good education which had been denied her in her youth. In doing so she also won for herself the respect and good will of everyone in this community.

Since the age of 13 she has been a member of the Christian church, and active in its work. She still occupies her own home near that of her daughter, Mrs. Harry Thompson. Her main pastime now is to crochet rugs, and enjoy the company of her friends, neighbors and descendants. Home for her birthday celebration were her daughters: Mrs. Effie Young and Mrs. Vernon Brown of Long Beach, Calif.; Mrs. Gaynelle Shore of Portland, and Mrs. Thompson. There are five grandchildren and three great grandchildren.

**Relaxation Secret**  
Being able to relax in the face of difficulties is perhaps one of the reasons she has lived to an age longer than any of her known family members. A brother, Charles Ivy of Davenport, Ia., is 80; and another brother is Jo Ivy, 75, Portland. James Ivy who made his home with her until his death last year at the age of 88, was her oldest brother.

**Live in Log House**  
The first home of the Garrisons in Oregon was a log house. As prosperity came to them they built a much finer home, and when Matilda and the other children needed advanced education, the family moved to Salem. She attended Willamette university before her marriage to William Jones, a native of Missouri, on July 16, 1874.

Mr. and Mrs. Jones farmed the old Garrison home place for many years. They celebrated their golden wedding anniversary in 1924 at McMinville. He died in 1932. They had three daughters: Mrs. Alice Taylor, Monmouth, with

whom Mrs. Jones makes her home; Mrs. Clara Stowe of Independence, deceased; and Mrs. Laura Cooper, Salem, deceased.

Mrs. Jones says she saw the first train come into Salem, and attended the second Oregon state fair. Her brother, John Garrison, was editor of The Statesman in the 1870s as nearly as she can recall.

All of her long lifetime she has enjoyed remarkably good health. She has outlived, in years, all of her family members. Her father died at 80 and her mother at 57. She has set her own record for longevity. She still enjoys reading the newspapers, makes calls on her neighbors and likes to have people "drop in." She has six grandchildren, five great grandchildren, and three great great grandchildren. She is a member of the local Evangelical church.

# "Yeah, Wouldn't We Like to Know"

This conversation overheard between one of our boys and good customer of ours (haven't any other kind). This customer asked our boy, "Say," she says, "who writes the ads for this store?" "Boy" says he, "wouldn't we just like to know. He seems to be a little familiar with the store and sh, sh, he has rabbit ears. Sure as shootin' he'll hear everything we say. No imagination, though. You probably never read any of the ads he writes. If you ever have, you'll notice the way he describes things. Now, take for instance our cheese counter; the most modern and sanitary case you'd care to see - - and say there's cheese displayed there from Oregon, Washington, Wisconsin, Minnesota, New York, to say nothing of all the imported kinds." "Yeah, and how he describes 'em. In his ad he'd say, 'Folks, take a gander at our cheese case, if that isn't a snack santhers dream we'd like to see one.' Over 40 varieties, huh, even I could write better advertisin' than that. Or take our Vegetable department. Yes, and the meat department. What's he say about 'em. What he says is dog-goned near slander, we all say around here. By Jimminy, if there ever was a nicer, more sanitary or more beautiful display of fine victuals, we've failed to see 'em." "That's right," remarks the customer, "it seems to me anyone could write a better ad 'n that. Why, there are literally thousands of nice things to write about. Clean and inviting, but, there's one thing I've noticed he sure knows how to price all these fine things so's a housewife can serve a well balanced meal with the least expense and effort. My word, that's what we want, isn't it? So what's the difference whether he has imagination or not." "That's right folks, we heard it and, as usual, the customer is right. It's easy to set a good table if you shop these markets . . . Court St. at Commercial or Marion St. at Commercial.
