

### Judge Minton - Confirmed for Justice Post

WASHINGTON, Oct. 4 (AP)—The senate tonight confirmed the nomination of Federal Judge Sherman Minton to be an associate justice of the supreme court. It did so after rejecting by a 55 to 21 vote a demand by several republican senators that Minton be summoned for questioning by the judiciary committee. He had expressed reluctance to testify, saying he did not think such an appearance would be proper.

Senator Morse (R-Ore) made a motion that Minton's nomination be sent back to the committee, which approved it 9 to 2 yesterday. He said the senate should insist that Minton be questioned. Senators Ferguson (R-Mich) and Donnell (R-Mo) supported Morse.

Confirmation came by a 48 to 16 vote after Senator Lucas (D-Ill), the democratic leader, had told his colleagues Minton will serve his country well on the high bench. "You can't judge a man by what he does in the United States senate so far as his judicial character is concerned," Lucas said. He added that "nothing good" could come to cross examination of Minton by the committee. Lucas said it would be "absurd" to require his appearance.

But Donnell said he does not think "that sufficient information has been made available to me." President Truman named Minton to fill the vacancy created by the death of Justice Wiley B. Rutledge.

Final action came shortly before midnight. Debate was delayed by wrangling over a new farm price support bill.

### Pussv's Not in Well - So Bossy Tries It

HARTFORD, N. Y. (INS)—Everything wound up in utter confusion when Ann, prize guinea cow owned by Dr. Ellis W. Eldridge of Hartford, decided to take a quiet little dip at dawn.

### Night Classes Tuesday Swell Term's Rolls

Opening classes in woodworking and leathercraft attracted a total of 26 persons Tuesday night, according to George D. Porter, director of the adult education program for Salem public schools.

More than 200 responded Monday night when first sessions were held for many other classes. Porter said that if a few more turn out for the woodworking class next week it will be divided into two sections. More are needed, however, for the leathercraft course in which Porter said all students "got right into a project" Tuesday night.

Ten more classes are slated for first sessions tonight. These include new courses in tailoring and home decoration. Considerable advance interest has been reported in both courses. Those who enroll for the latter will receive free a student's room-planning kit through courtesy of the Alexander Smith carpet company, said Porter.

Other courses slated for tonight include auto mechanics (for which Elmer S. Meade was selected this week as instructor), shorthand review—in which there is another class meeting Mondays, electric wiring, adult food class, mathematics review, metal and plastic craft, secretarial English and typing. All of the above classes will be at Salem high school.

### Douglas Reported Improved from Injuries of Tumble

YAKIMA, Oct. 4 (AP)—Supreme Court Justice William O. Douglas, injured near here Sunday when his horse fell on him during a mountain ride, was reported improved today by his attending physician.

The 51-year-old Douglas is suffering from 13 broken ribs and a punctured lung. His wife who arrived at his hospital bedside Monday evening, stated she "could see the improvement in his condition this morning." The justice, she added, rested "fairly comfortably" last night.

Meanwhile, hundreds of telegrams from friends and associates wishing the jurist well, have poured in today. One, from President Truman, urged Douglas to "keep your courage up and we'll hope for better days."

### Return of Rain Sparks Demand For Raincoats

Showers returned to Salem Tuesday after a lapse of several days, and clothing shops reported a brisk demand for raincoats. One men's store sold "at least 15."

Today's forecast was for scattered showers with gradual clearing tonight. Nearly a third of an inch fell here Tuesday, but the month's total lagged far behind last year and was .25 inch below the norm.

An accident near Rosedale school at 5 p.m. was believed caused by slippery roads. First aid men were summoned when Lloyd Cooley, Saleh route 6, incurred severe head lacerations when his car skidded off the road on a sharp turn and went down a 25-foot bank. He was dismissed from Salem Memorial hospital following treatment.

### Social Security Extension Wins Initial Tests

WASHINGTON, Oct. 4 (AP)—Legislation extending social security to 11,000,000 more workers won its first test today as the house, against republican protests and "go no farther" vote 189 to 135 to bar any amendments to the bill.

Then, although procedures permit four days of debate, a bi-partisan drive began for a final vote by tomorrow night. Speaker Rayburn said passage is certain. Some members voiced hope the bill might soften labor's demands for special pension plans financed wholly by employers. In the federal insurance program the costs are shared equally by workers and their employers.

Besides expanding old age and survivors insurance coverage, the administration bill would create new disability insurance, and treble payroll taxes in the next 20 years, to finance the expanded program.

Here is what the administration bill would do:

1. Increase from 35,000,000 to 46,000,000 the number of workers covered by old age and survivors insurance. Brought into the program would be about 4,500,000 non-farm self-employed persons, 3,800,000 employees of state and local governments (if these governments want their employees to participate), 750,000 domestic servants, and several smaller groups. Farmers and farm workers would not be covered.

2. Boost benefits by an average of 70 to 80 per cent.
3. Establish new insurance for persons who become totally and permanently disabled. Thus, in addition to benefitting an insured person in old age, or his survivors if he dies, the insurance would be extended to protect persons who through illness or accident become unable to work.
4. Increase taxes. The payroll tax, now 1 per cent against employer's pay and employer's payroll, would be boosted January 1, 1950 to 1 1/2 per cent on each; on January 1, 1951 to 2 per cent; in 1952 to 2 1/2 per cent; in 1953 to 3 per cent; and in 1954 to 3 1/2 per cent. The tax would be collected against the first \$3,600 of a person's income, compared to present collections against the first \$3,000.

In money the new taxes would jump social security collections from the present \$1,400,000,000 a year to about \$2,700,000,000 next year, and to about \$3,600,000,000 in 1951.

CHILDREN'S PARADISE—A youthful station mistress starts a train tour of a children's town on the outskirts of Belgrade, Yugoslavia, administered by the youngsters themselves.

ANGLER'S PRIZE—Crew members assist in boating a 383-pound tuna taken by Thorvald Sanchez of Cuba on the opening day of the International Tuna Match at Wedgeport, N. S.

reservoir, \$140,000; Dorena reservoir, \$2,500,000; and Fern Ridge reservoir, \$190,000. The money is for use by the army engineers during the 12-month period ending next June 30.

The agreement is subject to approval by the house and senate, expected within the next few days.

### Tourist Trade In 1949 Tops Previous Mark

Oregon's 1949 tourist business brought estimated revenues of \$110,000,000 into the state, the Oregon state highway commission travel information department announced Tuesday.

This was an increase of 19 per cent over the 1948 estimate of \$92,000,000 and surpassed the 1947 estimate of \$105,000,000 which was the previous record. The last pre-war travel year of 1941 was credited with a total of \$51,000,000.

The 1949 figures were based on a state highway department traffic check of out-of-state automobiles at 15 major points of entry. The survey revealed the average 1949 expenditure per day per person was \$5.75 as compared to \$5.33 during the 1948 travel year. Each out-of-state car represented an expenditure of \$113.39, based on an average load of 2.9 persons per car and an average stay of 6.8 days in Oregon, or equaling \$39.10 per person.

These figures represent motorists who stayed in campgrounds as well as those who patronized hotels, auto courts and other resorts.

### FIRE DAMAGES HOUSES

HENDERSON, Ky., Oct. 4 (AP)—Flames flashing from burning natural-gas outlets set off fires that damaged at least 15 residences and a restaurant in southwest Henderson this afternoon.

### VANDENBERG SATISFACTORY

ANN ARBOR, Mich., Oct. 4 (AP)—Senator Arthur H. Vandenberg (R-Mich) was reported in "satisfactory condition" at University hospital tonight. He underwent a six-hour lung operation yesterday.

### WINS ANNULMENT

NEW YORK, Oct. 4 (AP)—Mrs. Nancy Oakes de Marigny today won annulment of her marriage to Count Alfred de Marigny, 41, who was tried and acquitted of a charge of murdering her millionaire father, Sir Harry Oakes, in 1943.

### RED CROSS EXEMPT

CARSON CITY, Nev.—(INS)—A new state law exempts from taxes all property of the Red Cross used for organizational purposes and all non-income property of the Salvation Army and Girl Scouts, Boy Scouts, YMCA and YWCA property previously was exempted.

### Mother of 17 in 15 Years Says No More After Triplets Arrive

PITTSBURGH, Oct. 4 (AP)—Birth of triplets to plump Mrs. Arthur Griser today gave the 34-year-old housewife 17 children to show for her 15 years of marriage. But she is emphatic: "There'll be no more for me. This last bunch was just too much."

Family Doctor H. A. John said she could go on having babies for another 10 years. Mrs. Griser just smiled and replied seriously: "No, this is the finish."

She had four sets of twins and six other children before triplets Roy, Richard and Joanne Marie arrived yesterday.

Joanne Marie was first and weighed in at six pounds. The boys scaled seven and six. The other 14 income tax exemptions scrambling around the old modest frame Griser house in suburban Pitcairn are: Thomas, 15 months. Twins James and Joseph, 3.

Twins Mary and David, 4. Twins Dorothy Jean and Robert, 6. Harry, 7. Twins John and Dolores, 9. Samuel, 10. Sarah, 12. Arthur, 13. Agnes, 15. Daddy Arthur wasn't at home as the jolly Mrs. Griser showed off the triplets. Said the mother: "He can't afford to stay home from work. It costs a lot of money to care for all these kids."

Griser is 42 and earns \$180 a month as a fireman at Westinghouse Air Brake corporation. He often walks the four miles to work to save money.

The Griser house is a five-room affair, frame and smudged with the smoke of Pitcairn's industry. The triplets were born in a downstairs front room furnished with a pot-bellied coal stove, a couch, a small table, a big double bed.

### Perkins Reported Seen In Scotts Mills Area

A new hunt for Oregon prison escapee William John Perkins was touched off Tuesday afternoon following reports that he was believed seen near Scotts Mills.

State police reported that cars from Salem and Oregon City were dispatched to the area but to no avail. The suspicious man had been hitch-hiking and was last seen entering a '46 Buick convertible.

### U.S. Shelves Red China Bid On Recognition

WASHINGTON, Oct. 4 (AP)—A request by China's new communist regime for United States diplomatic recognition was shelved today into an official American pigeonhole.

The state department said in announcing its receipt there are no present plans for either answering or acknowledging it. The request, submitted in a letter signed by Chou En-Lai, communist foreign minister, was in terse terms which a U. S. spokesman called "an implied insult."

Before a decision is reached whether to recognize the government just proclaimed by the communists at Peiping, the state department plans to consult with Britain and the other western powers and with congress.

Diplomats forecast that action will not be speeded by the quick recognition proclaimed by Russia and the Soviet bloc nations.

The communist request was handed on Saturday to O. Edmund Clubb, American consul general at Peiping, and forwarded to Washington over the weekend. It appeared to be a formal letter sent to all the foreign diplomatic missions. Included with it was copy of the copy of the proclamation establishing the communist government.

### MOTHER'S INTUITION

BOSTON, Oct. 4 (AP)—A three-year-old lost boy spent several hours in a police station today but there was no ice cream or candy for him. His foresighted mother had placed a sign on him reading: "Please do not feed anything at all."

### ENDURANCE FLIERS NEAR RECORD GOAL

YUMA, Ariz., Oct. 4 (AP)—A pair of fliers who've flown 75,000 miles and used 8,433 gallons of gas getting nowhere should reach their goal tomorrow.

At 7:15 p.m. Woody Jongeward and Bob Woodhouse will have been in the air 1,008 hours, the endurance record set last spring by Bill Barris and Dick Riedel of Fullerton, Calif.

That's six weeks of continuous flying and the pilots of the "City of Yuma" figure that after one more week they'll have had enough. Woodhouse and Jongeward have about decided to come down on Columbus Day, Oct. 12.

### STUDENT GOP BODY NAMES PAT HOWARD

Pat Howard senior at Willamette university from Burlingame Calif., has been elected chairman of the Young Republicans group on the campus. It was announced Tuesday by William Merriam of Salem, state director of college republican activities.

Elected to assist Miss Howard this year were James Miller, Salem as vice-president, and Ernie Vosper, Oakland, Calif., secretary-treasurer. James Ragland, Brooks, has been placed in charge of meetings.

### Curb Against Union Asked At The Dalles

THE DALLES, Oct. 4 (AP)—Owners of a barge load of Hawaiian pineapple said tonight the NLRB would be asked to curb CIO longshore action that halted unloading of the fruit here last week.

R. M. Botley, agent for Islewaya Ltd., said the national labor relations board would be asked to invoke the secondary boycott clause of the Taft-Hartley labor law. He said the company's attorneys would file the action tomorrow in Portland.

CIO stevedores stormed a city owned river dock here last Wednesday, brushed aside non-union dock workers and police and injured two AFL truck drivers in the brief raid.

The barge was listed as "unfair" after it left Hawaii, where Harry Bridges' longshoremen had tied up the waterfront for months.

Botley said there would be no further attempt to unload the \$800,000 of canned fruit destined for California canneries until the NLRB had acted.

A Wasco county (The Dalles) grand jury has been ordered to convene Thursday to consider criminal indictments stemming from the riverfront strife here.

State's Attorney General George Neuner announced at Salem that he had assigned Deputy Fred Miller, formerly district attorney of Clackamas county, to work with Wasco District Attorney Don Heister to assist in prosecution of any of the Wasco grand jury indictments.

There has been no trouble since a circuit court ordered the union to cease picketing and state police shotgun squads patrolled the dock. The court yesterday rescinded its order because it no longer was deemed necessary.

The cargo owners had also been asked by the city dock commission to move the barge elsewhere.

### Czechs Join Russians in Treaty Break

PRAGUE, Czechoslovakia, Oct. 4 (AP)—Czechoslovakia chimed in with the conformin chorus today and denounced her alliance with Yugoslavia.

Charging that Marshal Tito had deserted the Soviet-led "camp of peace" and gone over to the legions of the "imperialists," Czechoslovakia also scrapped her cultural pact with the stiff-backed Yugoslav communists and demanded the recall of their ambassador.

For good measure, she joined another Russian-led conformin movement—recognition of the Chinese communist government at Peiping and severance of relations with the Chinese nationalists at Canton.

There was no indication that the demand for the recall of Yugoslav Ambassador Marijan Stilinovic meant a final break in the worsening diplomatic relations with Belgrade. The Czechoslovak note merely said that Stilinovic was personally undesirable because he had allowed Yugoslav spies to be infiltrated into the embassy under the guise of diplomats.

Hungary recently expelled 10 Yugoslav diplomatic personnel. Yugoslavia retaliated by ousting nine Hungarians.

By denouncing her friendship with the same alliance Czechoslovakia made it unambiguous in the conformin bloc of communist states. Russia, Hungary, Bulgaria, Romania and Poland already had done so. Isolated Albania, alone of Yugoslavia's communist neighbors, let her alliance stay on the books. But she is not a member of the conformin.

The second Russian-paced diplomatic movement—recognition of communist China—was approaching the same unanimity. Czechoslovakia, Romania, Bulgaria and Hungary already had followed Moscow's lead.

The Polish foreign ministry said it would take the same action "in a matter of a few hours."
