

# Archduke Otto Tells Valley Audience World Power Hinges on Red Drive South from China

By John H. White  
Staff Writer, The Statesman  
"The world's economic power will shift from the United States to Russia if the communists complete their current advance south from China," Archduke Otto, exiled heir to the Hapsburg throne in Austria, told the Salem Knite and Fork club Thursday night.

Speaking before the largest turnout in the club's history, the Archduke said:  
"China itself is a dead issue—a conquered country. It is important only as a springboard to Malaya, Siam, Burma and Indo-China to the south."

**Hold Key to Power**  
"These four countries, rich in key resources, hold the key to the world's economic power," he stated, "and already two-thirds of Burma and half of Indo-China are Red-dominated."

Only an Asiatic alliance, involving these four countries with India, can stop this advance, he said.  
"For this reason," the archduke continued, "the present visit of Jawaharlal Nehru, India's prime minister in the country may shape world history."

**Now Rides Fence**  
"Nehru has looked with disfavor in the past on the United States but now is riding the fence," he said.

"If he lands on our side, the alliance could be formed," he added. The archduke stated that such an alliance is one of five major moves free countries must make to stop communism.

The others, he related, include an "objective view of the enemy," a strong armament program, a casting aside of the notion that "counter-espionage is sinful," and "most important—a positive philosophy to oppose communism."

"This force," he concluded, "must be a unified Christianity, awakened as it was so successfully recently in Europe, and spread to the rest of the world."

**Law Keeps Benton Bulls At Home, Lets Cows Out**  
Cows, heifers and steers may run at large in Benton county but bulls cannot, Attorney General George Neuner ruled Thursday.

Neuner said the law against livestock running at large in Benton county applies only to male bovines. The opinion was asked by District Attorney Robert Mix of Benton county.

**CIVIC CLUB TO MEET**  
DETROIT — Eleanor Stephens, Salem, state librarian, will be guest speaker in a meeting of the Detroit Women's Civic club Wednesday at 8 p. m. in the high school. Anyone interested is invited to attend.

**R. H. BALDOCK ELECTED**  
SAN ANTONIO, Tex., Oct. 13 (AP)—R. H. Baldock, Salem, Ore., was elected to the executive committee of the American association of state highway officials here Thursday. Texan D. C. Greer was elected president. Baldock is Oregon state highway engineer.

## Men's Garden Club Plans Flower Show

The annual Fall Flower and Garden fair, sponsored by Salem Men's Garden club October 22 and 23, will have exhibits from most neighboring garden clubs as well as local clubs, according to Ray G. Warren president.

Final plans for the fair were discussed at the club's monthly meeting at the YMCA Thursday night. A discussion of chrysanthemums by Dr. E. J. Kraus of Corvallis featured the meet.

Competition of rose, dahlia and chrysanthemum entries is expected to dominate the fair. Classes for decorative arrangements are slated, and a mammoth floral display is planned by the sponsoring club.

The fair will be in the former Sears store at State and High streets. A sales table of material donated by club members will be maintained throughout the show. Items remaining at its close will be auctioned.

Clubs entered in the competition for cash prizes include the Little Garden club of Salem Heights, Friendly Neighbors, Gaiety Hill, Woodburn, Salem Rose society, Salem Camellia and Rhododendron society, Salem Begonia society, and Salem, Swegle Road, Brooks, Labish, Lansing Neighbors, Four Corners and Kingwood garden clubs.

**Detriot Dam Fund Assured**  
WASHINGTON, Oct. 13 (AP)—President Truman signed today the \$664,178,190 army civil functions appropriation bill which includes \$9,500,000 for the Detroit reservoir and \$450,000 for Willamette river bank protection in Oregon.

The amount allotted to waterways in the bill is \$634,920,090—a record one-year appropriation. The money is apportioned to more than 300 projects. The final figure was agreed to after senate-house committee conferences lasting more than four months.

**Quads Born to Canada Couple**  
SAULT STE. MARIE, Ont., Oct. 13 (AP)—Quadruplets were born today to a surprised couple who had expected only twins.

Mrs. Oswald C. Hargreaves, wife of a Canadian war veteran, could only comment "I never expected this," as her four tiny but healthy daughters were taken to an incubator.

The girls, averaging about 3 1/4 pounds each, were born three weeks prematurely, but Dr. John McDonald said the delivery at the hospital was just about normal.

## Children to Chase Cops in Cincinnati This Halloween

CINCINNATI, Oct. 13 (AP)—The kids will be chasing the cops here on Halloween night, instead of "the law" running after them.

The reason? because the policemen will have 10,000 bags of pretzels to distribute among them.

A local biscuit company will supply the pretzels and police cruiser cars will see that the kids get them.

## Truman Backs 48-Group AAF

WASHINGTON, Oct. 13 (AP)—President Truman gave his backing to the senate today in the contest over the size of the air force which is blocking appropriations for the whole defense establishment.

He told his news conference that he stands by his endorsement of a 48-group air force. And he said he had informed senate appropriations committees of his stand.

The president talked with reporters shortly after house representatives had walked out of a senate-house conference in adamant refusal to back down from their demand that the flying service get 58 groups.

## Russians Return 9 Lend-Lease Ships

YOKOSUKA, Japan, Friday, Oct. 14 (AP)—Russian crews today brought nine Soviet frigates into this U. S. naval base. These were the first lend-lease ships to be returned.

The frigates were lent to Russia during the war. They are patrol type craft of 1,430 tons with an overall length of 300 feet. Soviet crews will be returned to Russia aboard the Soviet Steamer Tobol, which arrived with the first group.

## Lilienthal Asks Secrecy Lessened

NEW YORK, Oct. 13 (AP)—Chairman David E. Lilienthal of the atomic energy commission, said tonight that America should stop straining for atomic secrecy now that Russia has the A-bomb.

"We should stop this senseless business of choking ourselves by some of the extremes of secrecy to which we have been driven, extremes of secrecy that impede our own technical progress and our own defense," he said.

We should lose no time working out a broader area of cooperation in atom matters with Britain and Canada.

## Russ Explore Antarctica With 'Powerful Planes'

NEW YORK, Oct. 13 (AP)—Russian ships recently have gone to Antarctica and explored the frozen continent with powerful planes, Rear Adm. Richard E. Byrd said tonight.

"Whether they were looking for uranium or not, I cannot say," he added. "The Russian ships are reported not to have had any names to identify them."

## Marketing of Hops Becoming Complicated

By Lillie L. Madson  
Farm Editor, The Statesman  
Growing and marketing hops have become quite a complicated affair, judging from information received Thursday from Paul T. Rowell, managing agent of the recently created hop control board and secretary of the growers' allocation committee, Salem.

Rules and regulations received by growers Thursday are full of phrases including "procedural instructions," "recommended determination," "unharvested production," "supplementary allotment issues," and "blocks of living vines." This is all a far cry, long-time growers report, from the story of hop harvest told in H. L. Davis' "Honey in the Horn."

However, Mr. Rowell stated Thursday, crop determinations are now being completed on each hop grower's crop. He added that all growers, whose harvested crop or any portion of it which has not been inspected by the federal-state hop inspection service or has not been weighed by the HCB growers' allocation committee, should contact the inspection service office or representative so that the entire operations may be completed as soon as possible.

Based on the determined salable quantity of 39,000,000 pounds or 195,000 bales of hops, the estimate established by Secretary of Agriculture Brannan for the 1949 west coast crop, Mr. Rowell reports that the probable cut is now set at 23 per cent of production.

**Vines May Be Cut**  
Growers have also been notified, Rowell states, that living vines or block of living vines left for field determination of unharvested production, may now be cut down and destroyed if notices of inspection have been received by growers. Such blocks of un-picked hops have been a constant source of curiosity to the passing motorist throughout this fall.

Efforts are now being made to get approval from Secretary Brannan for issuance of supplementary allotments on the basis of 90 per cent of the growers' salable allotment or nearly 70 per cent of his total 1949 production. In the meantime, if a grower feels his crop has been determined on a too close basis, a supplementary allotment will be issued permitting certification up to about 60 per cent of his 1949 production but not to exceed 80 per cent of the probable salable allotment.

## ODELL EXPECTS PASSES

SEATTLE, Oct. 13 (AP)—Coach Howie Odell expects Stanford to throw a lot of passes at his Washington Huskies in Saturday's football game. This has been evident in practice all week as the coach drilled his club in pass defense. Stanford will probably see a lot of the Don O'Leary-to-Joe Clodt passing combination.

## Vote to Delay Egg Workers Union Strike

PORTLAND, Oct. 13 (AP)—The scheduled egg and poultry workers strike was postponed for a third time today — this time to give the AFL union time to vote on an employer offer.

The federal mediation service said the two firms involved—Pacific Cooperative Poultry Producers and Brentwood Egg company — had made another contract offer. The terms were not disclosed.

The union then extended its strike deadline from this afternoon until next Monday.

Meanwhile conferences were scheduled with two other organizations: The Oregon Egg and Poultry Dealers association, and the Oregon Turkey Growers association.

## Felton to Head Brotherhood Week Meetings

Judge Joseph B. Felton will be Salem chairman for brotherhood week of the National conference of Christians and Jews. Announcement was made Thursday by Dr. Charles Howard, Saul Bloomberg and Ford E. Watkins, co-chairmen of the Salem committee of the conference.

Felton, Marion county district court judge, is a graduate of Willamette university and a member of the Oregon bar. He has been active in the affairs of the latter and of the American Bar association.

The co-chairmen stated "We are extremely fortunate in Judge Felton's acceptance of leadership in this important work. He is most ably qualified to head this important phase of conference work."

Announcement of Dr. Morgan S. O'Dell, president of Lewis and Clark college, as brotherhood week chairman for Portland also was made Thursday.

## Missing Movie Extra Sighted

SALINAS, Calif., Oct. 13 (AP)—The missing movie extra Jean Spangler was reported seen in Monterey in a 1949 Lincoln sedan, Sheriff Jack L. McCoy said tonight.

McCoy said the woman was seen in a drive-in by three responsible persons about noon Tuesday. He said they delayed reporting the incident until they were "all sure" that they had actually seen the gay movie extra missing since Friday night.

An all-point bulletin sent out by McCoy said the woman was accompanied by a dark, heavy set man who might have been a "Latin or Mexican." After they left the drive-in the couple headed north toward San Francisco.

## MEETING POSTPONED

LABISH CENTER — Because of the heavy fall work in the community, the Community club will not meet for its first meeting until the second Friday in November, it was announced by the new president, Max Bibby.

## Lewis Suggests Possible U.S. Mines Seizure

By Harold W. Ward  
WHITE SULPHUR SPRINGS, W. Va., Oct. 13 (AP)—John L. Lewis talked today about possible government seizure of the coal mines to end the strike.

But President Truman said he has no plans for such.

Operator sources discounted any possibility of outright government operation, saying there is no legal way to bring it about.

Lewis listed a "bona fide" seizure at the government's alternative for settling the coal strike—rather than by injunction or the kind of federal operation there has been in other years.

He brought this out at a news conference in which he disclosed his demands would raise the price of producing coal by 30 to 35 cents a ton.

He said this increase could be absorbed from profits and would cost the consumer no more. Operators denied this.

The burly UMW chief said the union doesn't want seizure and is against nationalization of mines. He declared that the union is willing to go it alone and "whip" the soft coal operators.

But, he added, if things get so bad the government feels it should "do something," then it should choose seizure and outright operation.

In the past, Lewis said, the government has run the mines by telegram and operators still received their profits.

## Rejection of Coquille Rural Fire Protection District Authorized

The Coos county court has authority to reject the proposed Coquille rural fire protection district is not compact enough.

Attorney General George Neuner said there are large areas within the proposed district which would be excluded from the district.

Many of these areas, Neuner said, are mostly bottom lands which are wet the year around.

## Baby Arsonist Poses Problem For Firemen

VANCOUVER, Oct. 13 (AP)—The fire marshal has a problem—how to discipline an incorrigible "baby arsonist."

A report to police today showed that a six-year-old boy had attempted to set fire to a suburban theatre last night—his fourth attempt.

Flames were leaping up six feet when a fire was discovered under a stairway.

Another five minutes and the whole theatre would have gone up," said Manager H. H. MacSnee. "The boy stood beside the fire heaping more paper on the flames."

MacSnee said a cardboard box stuffed with paper had been placed under the wooden stairway.

Police investigated and plan to refer the case to the fire marshal.
