Major stimulus in the news was the farm bill, but wheat also managed to derive a little strength from reports of a slight pick up in the bakery flour business. Another fact was senate action

In authorizing the commodity credit corporation to subsidize 23-24c. overseas shipment of 168,000,000 bushels of wheat, which is the American quota under the international wheat agreement. This raised the possibility of more aggressive cash wheat buying by the CC.

A child should not be encouraged to read before the age of six because his eyes are not ready for near-point concentration, and he may damage his vision according to some eye specialists.
