Scholarship To Be Given

Highlighting this week's observance of the 30th anniversary of Zonta International, word comes to the Zonta club of Salem that applications are now open for the 1950 award of the annual \$1,000 Amelia Earhart scholarship to a qualified young woman for graduate study in aeronautical engineering.

Dr. Helen Pearce, a Salem Zontian who is a member of the International committee on the Amelia Earhart scholarship, says this award, which was established in honor of the noted aviatrix and Zontian, has been made to nine air-minded career young women since 1940. Last year's winner, Miss Betty Strasser of Niagara Falls, is now studying at the University of Michigan.

Candidates for the award must hold a bachelor's degree and be recommended for excellent character and outstanding ability. The recipient may study at any graduate school where aeronautical work of a high order is offered, after approval has been granted by Zonta's scholarship committee.

Applications should be filed by March 1, 1950, with the chairman of the committee, Miss J. Winifred Hughes, Syracuse University, Syracuse, New York, or any Oregon girl who may be interested may get in touch with Dr. Pearce, of Willamette university.

The Amelia Earhart scholarship is but one of the many worthwhile projects sponsored locally and internationally by Zonta since its founding on November 8, 1919. Zonta International is a service organization of executive and professional women. During Zonta week, clubs in Canada and nine other countries will join the clubs in the United States in announcing current goals and rededicating themselves to continued community service.

The president of Zonta club of Salem is Mrs. Robert M. Fischer, Jr.

Seagoing Mother Mans Ship's Engines

ENGINE TENDING MAMMA Mrs. Carolyn West

AP Newsfeature
LONG BEACH, Calif. — When the 105-foot Monsoon puts to sea, the woman's place is the engine room.

The woman is Mrs. Carolyn West of San Marino, Calif., who with her husband, Jack, owns this converted army hospital ship.

The Monsoon, which comfortably sleeps 18 in its five state-rooms is large enough to accommodate a crew, but the Wests didn't want a crew. On their first cruise from Seattle, Mrs. West found out from the engineer who rebuilt the craft what goes on below deck.

Before many hours she was thoroughly familiar with all phases of the operations of the three 255-horsepower Diesels, as well as the huge generators, oil and fuel pumps and the rest of it.

The Wests and their family, Jacquelin, 11, and Gordon, 8, spend nearly every weekend and every vacation on the Monsoon. Their longest trip was down the west coast of Mexico and into the Gulf of California. Next summer they plan to spend a month in Alaskan waters.

Mrs. West is no novice around engines. She has flown her own plane for years and won the 1948 women's transcontinental race, from Palm Springs, Calif., to Tampa, Fla.

Back for the Winter

Late Pears Make Good Dishes; Several Varieties in Markets Soon

By Maxine Buren
Statesman Woman's Editor

We've long been an advocate of more and bigger use of pears. Though one of our most favorite canned fruits is the pear, which are usually Bartlett's, we also are very much in favor of eating the fruit fresh during the winter months.

Bosc pears are good from September to January. Comice are in market from October to February. The season for Anjou extends from October to April, and Nells, latest of all, are in market from January through June.

The Bosc is a russet pear, distinguishable by its long tapering neck. The Comice is large, and is creamy yellow when ripe, though sometimes it takes on quite a blush. The meat is smooth and fine grained. The Anjou is a stubbier pear, semi-heart shaped. It borders between green and creamy yellow when ripe. It is juicy, smooth and a favorite for eating. Nells are small, russet and tender. Pears must be picked green and allowed to ripen off the tree for best flavor. Many of the markets ripen the fruit before selling it, but the consumer may have to take care of her own conditioning in some cases. To ripen, allow to stand in a temperature of from 60 to 70 degrees until they respond to gentle pressure.

Hold in the refrigerator after ripening.

Pears, served with cheese and crackers make an excellent dessert following a simple meal; they are good just as-is for breakfast, or may be served with cereals and cream.

However, their only use is not necessarily as fresh fruit. They may be cooked in various ways, baked, served as pudding or pie. Here's a pie using pears—just a good fruit pie, with the addition of a little lemon for tartness and to bring out the pear flavor.

Fresh Pear Pie

3 cups sliced Anjou pears
3/4 cup sugar
3 tablespoons flour
Dash of salt
1/4 teaspoon nutmeg
Grated rind and juice of 1 lemon
1 tablespoon butter
Pastry for double crust

Put the pear slices into a mixing bowl and cover with the sugar, flour, salt and spice mixture. Add the grated rind and juice of lemon. Turn into pastry lined pie plate and dot with butter. Arrange upper crust, seal and vent. Bake at 425 degrees for 35 minutes.

And here's another way to serve pears at dessert time.

Pear Crisp

4 to 6 Anjou or Bosc pears
1/2 cup water
1 tablespoon lemon juice
Grated rind of 1 lemon
1/4 cup butter
1/4 cup sugar
1/4 cup flour
1/2 teaspoon cinnamon

Peel and core the pears and slice into a casserole. Add water and lemon juice. Work together the butter, sugar, flour and cinnamon until a fine crumb. Sprinkle over the pears. Bake uncovered at 375 degrees F. about 35 to 40 minutes. Serve warm or chilled with cream.

Five hundred and twenty eight nut baskets were made by the auxiliary Thursday night for Armistice Day in the US Veterans Hospitals for the patients.
