Neuner Rules Out Director Service

Directors of rural fire protection districts are prohibited from performing services for the district for compensation, such as making repairs to a fire station or selling merchandise to the fire department, Attorney General George Neuner held Monday.

There is nothing in the law, however, to prevent a director from serving as a volunteer fireman and receiving the usual compensation, Neuner said.

These folks mean business for the West... Pacific Telephone people receive pay adding up to \$19,000,000 a month.

Telephone paychecks also come to you

1. Timber...paper...copper...lead — we have to buy many things in the West to build the telephone system and keep it going. For instance, Western Electric, our principal manufacturer and supplier, bought over 20 million dollars worth of materials in the West last year. More than half of each dollar we take in goes for employees. Most of it is spent where they work and live.
2. More than 80,000 of those whose savings built the business...who own telephone stock...live here in the West. In return for the use of their money, a few pennies of each telephone dollar go to them. And as they trade with the grocer and the druggist, they also add to Western prosperity. It would probably be hard to find anyone who does not in some way benefit from the money we spend
3. When you add it all up, you find the money you spend for service comes back, in large part, to you. And of course your telephone dollars are doing their main duty well. They're buying more telephone service than ever before. Today you can call more of the people you want to call... more can call you. And your telephone still does its jobs for only a few pennies a call.

Your telephone is one of today's best bargains
