

## Car Shortage Alleviated at Dallas Mill

Statesman News Service  
DALLAS—The Willamette Valley Lumber company plant of Dallas expected to resume normal operations this week as freight cars arrived to alleviate the previous rail shortage.

Paul Morgan, resident manager of the mill, said he believed the car-shortage problem was solved and that no further curtailment would be forthcoming.

The lumber plant was closed

last Monday and Tuesday after the lumber inventory in sheds and yard nearly doubled. Freight cars had been in short supply for six weeks.

Boxcars left at the mill siding during the week included six large navy-owned cars which were shifted here to relieve the shortage. The mill shut down for the Thanksgiving holiday with the regular schedule of production to be resumed Friday.

Morgan said that assurance of rail cars indicated the mill would be able to operate continuously through the winter.

Silverton — Mr. and Mrs. N. T. Bascue left Tuesday by train for a two weeks vacation in Los Angeles. Bascue is a city employe.

## Mindszenty at Villa to Quiet Prison Unrest

By Eugene F. Gonda  
GENEVA, Nov. 26 (INS)—Hungarian emigre circles report that Cardinal Mindszenty has been transferred by his communist jailers from a prison hospital to an isolated and heavily-guarded villa in the Budapest suburbs.

The prelate, who is serving a life sentence for his defiance of the communist government, is said to be a "physical and mental wreck" as a result of his confinement thus far. His aged mother, who was allowed to visit the churchman last August, told her neighbors of her son's deteriorated health when she returned to her native village.

**Strict Isolation**  
The communist authorities are said to have decided to detain the cardinal in the villa rather than a prison, because they noted that his presence in the prison hospital stimulated the other prisoners to more stubborn resistance. Therefore, it is planned to keep the cardinal in strict isolation from the outside world, even fellow prisoners.

The villa, damaged during the war but not repaired, is situated on the Avenue Hiedeguti, near a special barracks of the secret police. Strong detachments of guards have been posted to prevent any attempt by the cardinal's still-faithful followers to approach him in his solitary detention.

Meanwhile, emigre circles added, the Hungarian government is redoubling its persecution of the Roman Catholic church.

A whole concentration camp has been reserved for prominent Catholic clergymen and laymen recently arrested. It is the ill-famed Kistarcsa camp, constantly used by Hungarian totalitarian regimes, both of the left and right, ever since Bela Kun's red dictatorship in 1919.

**Many in Camp**  
Among those now held in the camp are the Abbes Istvan Bereszy, formerly an official in the Ministry of Public Instruction, Joseph Fabian, former archivist of the Archbishopric of Esztergom; 23 parish priests from rural areas; Maj. Gen. Pal Hunfalvy; the diplomat Zoltan Tomba, former secretary of the Hungarian Embassy in Moscow; Count Laszlo Palffy, arrested as a "British spy," and several hundred others interned as "fascists." The population of the camp is growing every day.

The new drive is a direct consequence of the failure of the communist policy in the field of religious teaching in the public schools. Despite the persecution it is known that the great majority of Hungarian parents persist in seeking religious instruction for their children outside the schools.

**SILVERTON CLINIC SET**  
SILVERTON — Helen Wangsguard, county nurse, will hold a free school clinic under the sponsorship of the Marion county health department, on November 29, starting at 9:30 at Bethany school for pupils there and any pre-school children whose mothers bring them to the school. Immunization will be given for diphtheria, smallpox and whooping cough.

## Keizer School Largest Rural Unit in State

Statesman News Service  
KEIZER — Keizer school, now the largest rural school in the state, is having additional rooms built to accommodate the increased enrollment this year.

Rapid progress has been made because of the favorable weather and it is expected they will be

ready shortly after the first of the year.

School activities include the printing of a newspaper six times a year as a service to the pupils. Grades 5 to 8 will be working on a magazine subscription drive. The campaign will extend to December 9, and profits will be used for school equipment.

The welfare committee of PTA has started a clothing drive, which will be distributed among needy families in the community.

About 37 per cent of Austria is covered by forests, mostly spruce.
