Silverton, Lacombe Men Commended

Statesman News Service SILVERTON - Harrison L. (Hal) Fisher of Silverton has been commended for his action in fighting a fire at Camp Carson, Colo., where Fisher was participating in a training program with the Salem Seabee reserve unit January 14 to 28.

Fisher, together with Lt. (jg) Russell D. Barry of Lacombe, also a member of the Salem unit, helped other seabee reservists fight the fire which destroyed \$3,500,-000 worth of camp property and equipment. Lt. Lacombe was cited also.

The commendation came from the commanding officer of the 14th infantry at the camp and by the commanding general of the fifth army. The commendation says the men "responded immediately and without regard to personal safety."

When the brush and grass fire swept the camp eight lives were lost and barracks, warehouses, mess halls and equipment were destroyed, Fisher said. Fisher operates a service station here.

Keizer Women Meet Tuesday

Statesman News Service

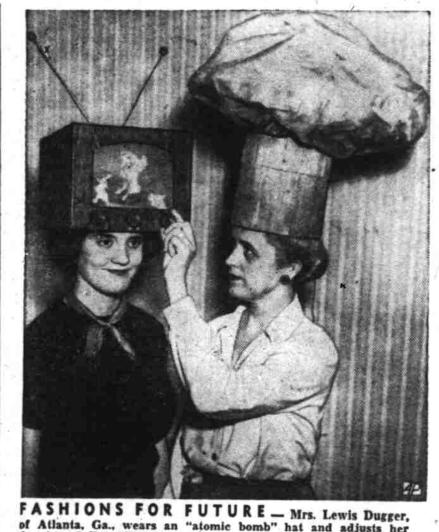

KEIZER - The Woman's Missionary society will meet for sewing and luncheon with Mrs. Ira Turner on Tuesday, February 7, at 10 a.m.

Top rate employees earned even more. A conservative estimate of the earnings of over 12,000 fully experienced employees in these groups is:

Switchboard Operating Employees	^{\$} 55.	^{\$} 2,87
Business Office Representatives	59 .	3,07
Craftsmen, Installers, Cable Splicers, Linemen, etc.	84.	4,37

\$7066

Wages for Pacific Telephone employees today are double what they would be on the 1939 rates.

Cost of living since 1940 is up 66%.

Even that doesn't tell the full story. Telephone employees receive automatic "progression" increases. Under this wage progression, about three out of four Pacific Telephone people will receive one or more raises this year. Employees who started about 1939 in many cases are getting three or four times as much as they did then. About 36% of the employees who were with us in non-management jobs in 1939, have been promoted to management positions in this up-from-the-ranks industry.

There's been a lot of discussion in recent days by Eastern union leadership about a telephone strike. But as this is written no union representing Pacific Telephone employees has called a strike against your service.

If pickets do appear in front of telephone buildings in your town, they will, most likely, be from the union representing installation employees of Western Electric Company-the company which installs most of the telephone equipment in our buildings.

You may be sure that, no matter what the situation, we'll do our level best to keep your calls going through.

What is Pacific Telephone's wage objective? We believe telephone people should be well-paid . . . and that our wages should compare favorably with those paid by other concerns in the community for work requiring similar skills and experience under conditions as good as ours. We believe this-and studies of 8,000 West Coast firms show they do.

One of the nation's finast benefit and pension plans-Telephone people have the assurance of a complete benefit and pension plan . . . with all costs paid by the company. There are liberal payments for sickness, accident disability and death.

Minimum pensions are now \$100 a month at age

1-1682 11- 2

sixty-five, including Social Security. Many employees, of course, get more than the \$100 a month pension ... depending on their pay and years of service. For example, if a man started at 22 and retires when he's 62, following ten years with an average wage of \$80 a week, he'll get a pension of \$139 a month.

Working conditions good - Steady work in an essential service . . . good working conditions . . . pleasant associations . . . these are some of the items a telephone man or woman can count on. There are many chances to advance-all the top men and women in the company came up from the ranks. There are vacations with pay, of course-up to three weeks-and seven or eight paid holidays each year.

Perhaps the best evidence of the quality of telephone jobs is that plenty of good people have kept coming into the telephone service . . . and they stay a long time. The cost of any general wage increase would have to be paid by telephone customers. The company's earnings are already too low. Wage increases over the past ten years have amounted to millions of dollars more than rate increases.

We'll do our best to keep your calls moving-If a strike comes, we pledge that we will do everything within our power to meet our public obligation in continuing the service-a service so vital to public health and welfare.
