Volume of business for the year amounted to over \$718,000 with a net margin of 7.8 per cent, plus another savings from Pacific Supply Co-op which should be equally as large and would give a net savings of approximately 15%.
 The company has called for payment for the 1943 certificates of interest which will amount to approximately \$29,000. This, with paying the usual cash dividends on the past year's operations, makes a combined sum in excess of \$65,000 which will be returned to the membership.

 About 400 members attended the meeting and the free noon time luncheon.
