Penalties for Topping Crops

WASHINGTON, Feb. 21-(AP)-Reinstatement of strict penalty provisions for exceeding wheat and corn marketing quotas - if quotas should be imposed in the future—was recommended to congress today by agriculture department officials.

Frank Woolley, deputy director of the production and marketing administration, told a house agriculture, subcommittee that last year congress apparently inadverently repealed provisions in the farm law fixing the penalties.

He told a reporter later that lack of such penalties in the present law makes little difference at this time since marketing quotas were not established for the 1950 corn and wheat crop. The old law provided that the

penalty in excess marketing of wheat and corn should be 50 per cent of the basic loan rates in section 302 of the act. In revising the law in 1949, Woolley said, congress repealed section 302 and department attor-

were repealed. He recommended that the committee, considering possible revi-sion of wheat laws, include a provision for a 50 per cent penalty.
