

Large Uranium Deposit Found In Wyoming

SUNDANCE, Wyo., Feb. 23-(AP)—A deposit of uranium ore and rare earth oxide, believed to be the largest of its kind anywhere on the globe, has been discovered in the Bear Lodge mountains north of here, mining interests said today.

A. J. Katches, Duluth, Minn., mining engineer said he made the discovery last August while investigating fluoride deposits. Announcement of the find was withheld until development work was done and ore assays conclusively indicated the extent of the deposit.

Middle Income Housing Bill Scaled Down

WASHINGTON, Feb. 23-(AP)—The senate banking committee today drastically scaled down President Truman's housing program for "middle income" families, then approved the revamped version by a 9 to 4 vote.

The administration's original bill called for \$2,000,000,000 in government-backed loans to cooperatives to be made up of families whose income ranges from \$2,400 to \$4,700 a year.

The committee cut the loan figure to \$1,000,000,000 and adopted a new plan for financing the home construction. Senator Sparkman (R-Ala.) said the effect of the change is that the government no longer would guarantee the loans. They would be insured by a national mortgage corporation for housing cooperatives.

Money for the loans would be raised through the sale of debentures, or securities, by the corporation. Sparkman said the change would be in line with recommendations of the federal reserve board. It urged that the program be based on the federal housing administration (FHA) principle of insurance of home loans.

Suicide Ends Gun Battle in Klamath Falls

KLAMATH FALLS, Feb. 23-(AP)—A 46-year-old man, accused of threatening a girl, fired two shots at police here tonight, then apparently committed suicide.

Police, who returned the fire, found the body of Robert McIntyre, 46, plumber's assistant, in a shed in the Broad street district, where he had been cornered.

Dr. George H. Adler, county coroner, said McIntyre had shot himself through the head with a .38 caliber revolver.

Police said a 17-year-old girl, Troy Mae Peters, reported he had threatened her with the gun. When two patrolmen arrived, McIntyre fired a shot at them, then fled to the shed, Policeman Carl Kelley said.

The fleeing man shot again from the shed and Policeman Bud Switzer fired one shot in return, Kelley said, adding that one more shot was heard in the shed. The gas then was fired at the shed, and police found the body.

Labor Leader Held Guilty for Denying Red Affiliation

WASHINGTON, Feb. 23-(AP)—Grim-faced Harold Christoff, former Milwaukee labor leader, was convicted late today on charges he lied under oath in telling a congressional committee he had never been a communist.

The tall, slightly stooped defendant stood listening without any change of expression as the jury foreman intoned "guilty" on each of five counts.

Punishment could range from two to 10 years on each count. Sentencing probably will be delayed until next week.

U.S. Strengthens Listening Posts

WASHINGTON, Feb. 23-(AP)—The United States is strengthening its diplomatic listening posts in Asia as a result of forced closure of American consular offices in Communist China.

Three new foreign service offices are being opened, and former China consular personnel are being reassigned to strategic positions on the perimeter of the Chinese iron curtain.

STUCK SHIP PULLED FREE

COOS BAY, Feb. 23-(AP)—The steamship Howard Olson went aground on a mudbank today, and was freed an hour later by two tugs. The ship listed badly after it grounded, but her cargo of lumber did not break loose. She returned to port for inspection.

RED ATTACK KILLS 23

SINGAPORE, Feb. 23-(AP)—Assailants identified by Malayan security forces as communist terrorists today killed 23 persons in a surprise attack on the Muzo police station in Johore state 75 miles north of Singapore.

300-Pound Woman Saved From Well

CENTRALIA, Wash., Feb. 23-(AP)—A 300-pound woman who plunged 40 feet after breaking through planking on top of a well was rescued last night by a fireman and a state patrolman after two hours of partial submersion in chilly water.

The woman was Mrs. Ethel Rosander, 59, of Ethel, 25 miles south-east of here.

Her plight was discovered by neighbors who heard her cries shortly after she fell through the planking. Her fall was slowed by grasping the piping at the side of the well.

She halted her fall 10 feet from the bottom of the 50 foot shaft, with the lower half of her body in water.

A rope was dropped but attempts to drag her out succeeded only in nearly strangling Mrs. Rosander.

Two hours later State Patrol Sgt. Marvin Paulsen and Chehalis fireman Bud Naught arrived and Naught went down the shaft with a chair.

He was unable to get the chair under the woman and finally succeeded in slipping another rope around her leg and waist. Paulsen and three other men then dragged her to the surface.

Mrs. Rosander was reported in good condition at a Chehalis hospital today.

McCormick in Spain Under Wrong Flag

MADRID, Spain, Feb. 23-(AP)—Col. Robert R. McCormick, publisher of the Chicago Tribune, quickly made amends with Franco Spain today for flying in with a flag of the dead Spanish Republic painted on his plane.

His arrival caused a sensation until he explained the flag was an innocent error and ordered it corrected pronto!

Apparently a sign painter who doesn't keep up with the times or has a waggish streak was responsible. The plane is decorated with flags of the countries McCormick is visiting.

McCormick apologized to Spanish officials gathered at the airport to greet him on his tour to the east. He went on to praise Generalissimo Francisco Franco.

He told reporters at a news conference he considered Franco "perhaps the greatest general of our time, certainly the greatest general in Europe — much greater than Guderian." (Hitler's Col. Gen. Heinz Guderian.)

McCormick is scheduled to see Franco privately Saturday before taking off for Athens.

Astoria Denied Video Station

WASHINGTON, Feb. 23-(AP)—The communications commission today denied an application of Leroy E. Parsons and Richard F. Denbo for a new experimental television station at Astoria, Ore.

The applicants do business as Clatsop Video Broadcasters. The commission said it appeared the applications' main purpose was to provide a television service for Astoria. They failed to make an adequate showing, the FCC said, of a definite program of research and experimentation in the technical phases, and the proposed programs were not of a type necessary for experimentation.

Hungary Demands U. S., Britain Cut Diplomatic Staffs

BUDAPEST, Hungary, Feb. 23-(AP)—Hungary tonight demanded a reduction in the American and British diplomatic staffs here as a result of the trial of Robert A. Vogel.

Vogel, 39-year-old American assistant vice-president of International Telephone and Telegraph company, was sentenced to 15 years in prison Tuesday on charges of espionage and sabotage.

Notes sent to the United States and British legations tonight said the total of their diplomatic personnel "greatly exceeds their pre-war number." The Vogel trial showed "the purposes served by the maintenance of such disproportionately large staffs at the legations," the notes added.

Truman Refuses to 'Approach' Russia

WASHINGTON, Feb. 23-(AP)—President Truman stood firm today in rejecting any dramatic new approach to Moscow on the control of atomic weapons.

He told his news conference he has received no "feelers" from Russia on the subject.

Mr. Truman said frankly he doubts that new approaches to Russia would accomplish their purpose.

DOCK AREA DEMOLISHED

HONG KONG, Friday, Feb. 24-(AP)—Nationalist China bombers demolished the dock area of Kowloon, only 40 miles south of Canton, press dispatches said today. The Nationalists have threatened to smash all vital cities in communist China.

RED ARMY SALUTED

MOSCOW, Feb. 23-(AP)—Twenty gun salutes were fired tonight in Moscow and many other cities of the U. S. S. R. to celebrate the 32nd anniversary of the Soviet army.

Commie Youth Said Prodding Coal Walkout

WASHINGTON, Feb. 23-(AP)—Testimony indicating that 50 youth leaders of a communist-front organization may be seeking to prolong the critical coal strike was laid before the house un-American activities committee today.

Matthew Cvetcic, of Pittsburgh, a former FBI undercover agent, said he had been informed two weeks ago that the alleged radicals were distributing food to the miners "as bait" while passing around copies of the Daily Worker, a communist newspaper.

Cvetcic said he was informed of these tactics by Bill Gordon, whom he identified as a communist organizer.

The witness said Gordon told him that 50 emissaries of the Communist Labor Youth league had been transported from New York to "work in the coal fields" spreading the party line.

Revival Meet Lasts 11 Hours

WILMORE, Ky., Feb. 23-(AP)—A continuous chapel meeting at tiny Asbury college closed tonight at 10 p.m. (CST) after 11 hours of songs, testimonials, confessions and prayers.

Several hundred students, however, are expected to return to the chapel tomorrow morning. J. M. Anderson, teacher in the department of the Bible of the interdenominational school, said a group of students called a prayer service for 6:30 a.m. in the chapel tomorrow, which is a world day of prayer.

Navy Accepts Plane to Hunt Snorkel Subs

BURBANK, Calif., Feb. 23-(AP)—Navy acceptance of a plane specifically designed to hunt down the formerly radar-proof "snorkel" submarines was announced today by Lockheed Aircraft Corp.

The craft is a new version of the P2V Neptune and is equipped with magnetic detection gear which permits pin-point location of submarines at any depth, the company said.

Heretofore, airborne radar equipment has been unable to detect subs running under water with only the end of the snorkel breathing tube showing on the surface. The new Neptune, the P2V-4, is able to determine the depth at which the sub is running.

Once radar contact has been made, the sub-killer speeds to the area and drops a radio sonobuoy. This floating device contains microphones which pick up the noise of the sub's propeller and relays it to the plane thus establishing the submerged vessel's position.

The plane then tries to knock out the sub, or at least keep it submerged and traveling at reduced speed until surface vessels can close in for the kill.

Wheat Punches Out Gains in Stock Market

CHICAGO, Feb. 23-(AP)—In a strong, active market, wheat and soybeans punched out large gains today.

The trend started upward at the start and continued that way, with only minor reactions, through to the close.

Wheat went to a new seasonal high, but met a large number of offerings at the \$2.22 level. It was not as strong as deferred months. December wheat, which has not been traded for long, also hit a new high.

Wheat ended 1 1/2% higher, corn was 3/4% higher, oats were 7/8% higher, rye was 1 1/2-2% higher, soybeans were 1 1/2-3% higher, and lard was 13 to 20 cents a hundred pounds higher.

Specialized Buying Buys Stock Market

NEW YORK, Feb. 23-(AP)—Specialized buying buoyed the stock market today.

The general run of prices showed only minor variations, many of them seaward, through the session, while a hand-picked group of stocks finished with gains running to more than a point.

A steady flow of demand was linked to high hopes that a break in the coal deadlock was shaping up.
