Molotov Says Russ Unafraid of H-Bomb The Oregon Con 'That Doesn't Exist'

By Thomas P. Whitney

MOSCOW, March 10-(AP)-Soviet Deputy Prime Minister V. M. Molotov declared today that only lunatics could hope to frighten the Soviet people with a hydrogen bomb "which does not exist." He asserted in an election speech that while all sorts of blackmailers from the imperialist camp had been trying to scare the USSR with a monopoly of atomic bombs, the USSR was successfully mastering atomic en-

ergy and atomic weapons. He went on to say that now the same blackmailers are trying to scare the Soviet Union with the hydrogen bomb.

His mention of the hydrogen bomb was the first time it has been referred to by name here. Other commentators have previously called it the "superbomb." The Soviet monotor in Lon-

Cold Front Blamed

Except for the Oregon coastal area, all of the northwest felt the resumption of winter weather. A cold front sliding in a southwesterly direction from northern Canada was blamed for the interruption of spring-like weather.

At Spokane, a maximum of only the 1950-51 school year. 26 degrees was recorded Friday and five inches of new snow was on the ground there. Several inches of snow fell all along the Cascade range making highway travel hazardous, Chains were required to negotiate Santiam pass and motorists were advised to carry chains on Willamette pass and in the Redmond area of Central Oregon. Ten inches of snow had fallen at Government camp early Fri-
