## Dayton Rodeo Group Elects 1950 Officers

Statesman News Service  
**DAYTON** — Members of the Dayton Pioneer Buckaroo re-elected Les Leach president of the organization. H. W. Frink, vice president, and J. S. Imlah as secretary-treasurer.

The board of Directors for the ensuing year will be H. W. Frink, Harry Williams, Bill Maxwell, Robert R. Stilwell and Warren Dundas.

The date of the 4th Annual Dayton Buckaroo was set for Saturday and Sunday, July 29 and 30. It will be preceded by a dance, to be held about 2 weeks prior to that time, at which a queen to reign over the two-day celebration will be elected. Dayton's Buckaroo has become a traditional event in the historic Yamhill county town, and plans for the 1950 event indicate that it will be the best one yet held, leaders say.

## Look how you save with Dynaflow

**FIRST** thing you notice, of course, is the bother and effort Dynaflow Drive\* saves.

Next, that Dynaflow saves you physically—after long trips you're less tense and tired, more relaxed.

But then, as the miles pile up—and this comes from cold, recorded fact after Dynaflow's two years of public operation—you spot savings you hadn't expected...

You save on tires—because power application is steady, even. On clutch expense—the usual friction clutch is gone.

You save on transmission maintenance, and the rear-axle expenses likely to go with it. And the way your engine is oil-cushioned against normal shocks and strains shows up in less engine upkeep.

You may well discover another pleasant surprise, too.

We are getting a steadily mounting number of well-satisfied letters about gasoline mileage with Dynaflow cars.

The SPECIAL has shown some records little short of phenomenal. The SUPER is delivering mileage that compares most favorably with gearshift cars. And the ROADMASTER more than holds its own with cars of its size and bulk.

In short, there's a lot more to please your budget in the 1950 Dynaflow than its new lower price. Refinements over the past two years result in savings that are sizable over the life of the car.

Knowing that, don't you want us to demonstrate the big side of Dynaflow—the utter smoothness of America's first oil-does-it-all drive?

**Only Buick has Dynaflow—and with it goes HIGHER COMPRESSION** Fireball valve-in-head power in three engines. (New F-263 engine in SUPER models.)

• NEW PATTERN STYLING, with MULTI-GUARD fender, taper-through fenders, "double bubble" taillights • WIDE-ANGLE VISIBILITY, close-up road view both forward and back • TRAFFIC-HANDY SIZE, less over-all length for easier parking and garaging, short turning radius • EXTRA-WIDE SEATS cradled between the axles • SOFT BUICK RIDE, from all-coil springing, Safety-Ride rims, low-pressure tires, ride-steadying torque-tube • WIDE ARRAY OF MODELS with Body by Fisher.

**Matchless Team — DYNALUX and F-263**

In the Buick beauty pictured here you can have both Dynaflow and Buick's very latest in power. For every latest in power. For every latest in power. For every latest in power. For every latest in power.

1950 SUPER has the F-263 engine, that lively high-compression stepper that's the big power thrill of the season. Dynaflow Drive is optional equipment at extra cost.

FOUR-WAY FOREFRONT

This rugged front end (1) sets the style, (2) saves on repair costs—vertical bars are individually replaceable, (3) cradles "loading horns," (4) makes parking and garaging easier.
