How is a New Hairstyle Born?

After his many years of catering to the most fastidious women of New York, here is what Mr. Erich has to say

The birth of a new hair style is conceived at an informal consultation which permits the study of personality, facial structure and features.

Only THEN is the all-important shaping and cutting done for the FOUNDATION of the new style.

HOWEVER

None of us can visualize the perfect creation which, so far, exists only in the mind of the artist. To complete the picture requires that the hair be shampooed and coiffured. Then and ONLY then have you had a satisfactory hair styling.

Our salon is a complete beauty institution. Stop in today for that needed permanent wave or a shampoo and finger wave.
