### Designing Woman

By Elizabeth Hillier

Here's an idea that seems to add a window to the bedroom, while it makes an important beauty shrine of a plain dressing table. It's especially good plotting for the room that has windows on only one wall. Attach a shining sheet of mirror to the wall over the dressing table. Then make the mirror a match for the windows with exactly the same cornice and curtains. The best trick that's done with mirrors is to make a small room look larger than it is. A small, none too light room looks wider and brighter for this window-like mirror treatment. It's plus elegance for the room, too, and you have something different there that's no more of a trick to work out than the usual dressing table skirt.

### A Little Bit Frenchy

#### Pancakes Go Glamorous When Made As the French Do; Breakfast Dish Too

Statesman Woman's Editor

Pancakes aren't just a mixture of flour and shortening, baking powder and milk that you fry on a griddle. Sometimes they become desserts.

Crepes Suzette, sweet little delicacies they talk about in French novels, are really pancakes gone glamorous.

An old French cookbook of 1855 reveals the recipe thus:

"Take some flour, mix it with milk and water, eggs, salt and orange-flower water. Make your batter two or three hours before you use it. Melt in a frying pan some butter or lard, about the size of a walnut, pour in some of the batter, shake the pan so its spreads all over it. When done on one side, toss it quickly over to let other side be done also, then dish it and keep it hot till the others are done, sifting sugar over them."

But our modern version reads more precisely:

CREPES SUZETTE

1 cup flour 1/2 teaspoon salt  
1/2 cup powdered sugar 1 cup milk

Mix flour, sugar and salt. Add milk and stir until perfectly smooth. Add eggs and beat thoroughly. Heat a 5-inch or other size small frying pan. Grease with a few drops of oil, pour in just enough batter to cover pan with very thin layer. Tilt pan so mixture spreads evenly. When cooked on one side, toss or turn with spatula and brown other side. Cook pancakes one by one. Roll up or fold in quarters and arrange on a hot platter. Makes 18 to 24.

SAUCE

Cream 1/2 cup butter, beat in 1/2 cup powdered sugar and add grated rind and juice of orange. Prepare ahead of time and set aside.

There's a Russian version of the crepe too, which is made just about the same way, except that the beaten egg whites are folded in last. The pancake is browned only on one side, then rolled up with cottage cheese inside. Sprinkle with powdered sugar and top with a dab of red jelly. Allow two or three rolls for each serving.

But hotcakes can still be a breakfast dish and remain dressy. Try this one on company sometime: May be served at teatime too.

RUTH'S DOLLAR PANCAKES

1 1/2 tablespoons sugar 1 teaspoon cream of tartar  
1 1/2 tablespoons butter 1 teaspoon soda  
1 beaten egg 2 scant cups flour  
1 cup sour milk Pinch of salt

Fry in size of dollars, cool on cake rack. Serve cold, sprinkled with butter and powdered sugar or maple syrup or spread with jelly and nuts. Hot maple syrup for breakfast, cold for tea.

### More for Your Money

#### "Do-It-Yourself" Home Decoration Job Is In Laying Asphalt Tiles

The newest "do-it-yourself" home decoration job is in laying asphalt tiles. The idea is to buy a small kit of the necessary tools and to apply a variety of tiles to cover any room from a kitchen to a game room by following the instructions in a manual that accompanies the tiles.

The advantage in doing the job yourself is that you can design your own flooring and save a good deal of the cost by eliminating the usual labor charges, which often run higher than the cost of the materials. The new work for amateurs is recommended for any smooth concrete or firm double floor with boards under three inches wide. For badly broken floors, or cracked concrete, a professional job is recommended.

The asphalt tile comes in a wide range of colors with a sliding scale of prices. The deeper the color, the less expensive the tiles. The asphalt tiles come in squares and you can have a solid color floor, or work out a checkerboard, block pattern or border design in any color combination. You start with a plan of your floor and work out the pattern in blocks. The adhesive substance to cement your tiles down can be obtained in the same size as the tiles and tool kit. Most of the patterns have a marble effect and range from white and red on black to pastel shades. The asphalt tiles have had a background of longwearing ability in industrial buildings and will give you long service in your home. They wash easily and are odorless and moist resistant.

Covering your floor with asphalt tiles is a good job to leave for a day at home when you have time to do something that will be useful for a long time to come.

### More for Your Money

#### "Do-It-Yourself" Home Decoration Job Is In Laying Asphalt Tiles

The newest "do-it-yourself" home decoration job is in laying asphalt tiles. The idea is to buy a small kit of the necessary tools and to apply a variety of tiles to cover any room from a kitchen to a game room by following the instructions in a manual that accompanies the tiles.

The advantage in doing the job yourself is that you can design your own flooring and save a good deal of the cost by eliminating the usual labor charges, which often run higher than the cost of the materials. The new work for amateurs is recommended for any smooth concrete or firm double floor with boards under three inches wide. For badly broken floors, or cracked concrete, a professional job is recommended.

The asphalt tile comes in a wide range of colors with a sliding scale of prices. The deeper the color, the less expensive the tiles. The asphalt tiles come in squares and you can have a solid color floor, or work out a checkerboard, block pattern or border design in any color combination. You start with a plan of your floor and work out the pattern in blocks. The adhesive substance to cement your tiles down can be obtained in the same size as the tiles and tool kit. Most of the patterns have a marble effect and range from white and red on black to pastel shades. The asphalt tiles have had a background of longwearing ability in industrial buildings and will give you long service in your home. They wash easily and are odorless and moist resistant.

Covering your floor with asphalt tiles is a good job to leave for a day at home when you have time to do something that will be useful for a long time to come.
