Stock Prices Jumbled in Day's Trading

NEW YORK, May 8-(AP)-Prices were pretty well jumbled today as the stock market moved in an onclusive manner.

There was no carry through of the strength shown in the previ-ous session except in a few in-

Gains were more numerous than losses, but the losses on aver-age ran heavier. The market started off on a downward note and continued that way until the final hour

when there was some recovery here and there.

The Associated Press average of 60 stocks was down .1 of a point at 77.4, just .1 under the high for the year established Saturday. That was the highest since August, 1946.

Bullish minded brokers saw a sign of strength in action of the volume. The total for the day was ,680,000 shares, the lowest since early April. As prices dipped, the volume fell. It was off every hour until the closing period which customarily sees a burst of trading.
