Over \$1 Million In Timber Tax Receipts Given

Oregon has collected more than \$1,000,000 in timber harvest taxes since the levy was authorized nearly three years ago, the state tax commission has announced.

Funds collected from the tax, which is 5 cents per 1,000 board feet, are divided, 40 per cent to the state forest research and experimental fund and 60 per cent for research in utilization of waste resulting from timber harvests.

Cost of collecting the \$1,000,000 has been only \$68,139, the commission announced.

The third fiscal year of operation will end June 30. Collections totaled \$375,265 in 1948, \$390,258 in 1949 and \$233,212 as of April 30 of this year.

Operators who neglect to pay the tax have been fined a total of \$11,276 since July of 1947. Field men are constantly searching for delinquents and are collecting payments that were due as far back as 1946.
