Flag with Five Rows, 10 Stars Each Favored

The American flag, if Alaska and Hawaii are added as states, should have its field of stars divided into five rows of 10 stars each, in the opinion of the majority of persons who voted in the Statesman's flag-choice contest thus far.

Second choice was the suggestion that the stars be in three circles.

A proposed new design was entered by Mrs. Joe Papan of 509 N. E. Yamhill, Sheridan. It would have the stars in somewhat the form of a cross, with the words "For God and Country" at the top.

Others who voted included Shirley Stokes, 2860 S. Commercial; Nadeen Taylor, 100 Chemeketa; Dr. O. A. Olson, route 1; Edith Carper, route 4; Elsie Carpenter, 682 N. 15th st.; Mrs. Edna Waterman, 465 N. Cottage st.; Mrs. G. R. Green, 5115 D st.; Jennie B. Buisman, 3870 Midway dr., all of Salem; Mrs. John S. Cox, route 2, Dallas, and Mrs. Glen Ahre, 483 Montgomery, Woodburn.

All "votes" and new designs will be forwarded to Alex Raymond, president of the National Cartoonists' society and author of the leading comic strip Rip Kirby, who through the King Features syndicate is conducting a nationwide poll.

Officials to Ask Money for Blind School

Officials here Thursday said they would attempt to obtain an additional appropriation of approximately \$60,000, for construction of a new school building at the state school for the blind, rather than change the original plans and specifications.

Low bid on the structure was \$334,000 or approximately \$34,000 in excess of the amount of money now available in the state building fund. Approximately \$30,000 also will be required to pay architect fees and engineering costs.

The board of control probably will act on the bids at its next meeting.

The board also was expected to renew negotiations with the state highway commission to extend the present tunnel recently completed between the state capitol and public service building to the new state highway department structure now under construction.

At the last board meeting State Highway Engineer R. H. Baldoock said the commission had turned thumbs down on the project because of the cost.

Board members said funds might be obtained from the state emergency board.
