HOW TO PAINT

If it hasn't lost its shape, most metal furniture can be made young again with new paint. But whether or not the job is a success depends on what you do to the furniture before you paint it. First of all, remove all the loose paint and rust you can with steel wool. Then apply paint remover to too thick or blistered paint and wipe and scrape the paint off. Apply rust remover and proceed in the same way. Rust preventer comes next and for a short cut, mix it with metal primer—1/2 pint to 1 gallon. The metal primer can be red lead which comes ready-mixed. You're near the finish now and ready to brush on two coats of enamel made for outdoor use. But don't paint when the ground or atmosphere is damp, or when the sun is hot. If you do, paint may blister because the surface dries before the thinner evaporates, and vapor forms under the paint.

There's a piece of furniture at your house which would be twice as nice if the finish were beautiful. See Elizabeth Hillier's booklet FURNITURE REFINISHING—HOW TO DO IT YOURSELF and learn how to bring out good looks you never knew your furniture had. Address Miss Hillier at this newspaper and enclose 15 cents in coin, please, with a stamped, self-addressed envelope. (Copyright 1953 by John F. Dille Co.)

## ... your PGE electric dollars stay at home

PGE employs over 1,600 Oregon people... pays them over \$6,300,000 yearly

PGE employees are your friends and neighbors. You see them on the street, in the store, at church and community gatherings. They're Oregon people... people who live, work and play in Oregon... people who have a genuine personal interest in this region.

These 1,600 people were paid more than \$6,300,000 last year... Dollars that were spent in local stores, that bought local homes, that were deposited in local banks... Dollars that helped this region prosper.

Yes, the biggest single share of your electric dollar goes for wages and salaries. And most of the rest of it stays in the West to help this region grow and prosper. For example, PGE paid out more than \$2,400,000 in state and local taxes last year, and about \$1,400,000 in dividends to the 83% of PGE's 15,000 stockholder-owners who live in the West.

Yes, your electric dollar buys more than just electricity. A share of it goes for a better community, for jobs and income to thousands of your fellow citizens, for many other things that spell progress for this region. Anyway you look at it, electric service is your biggest bargain!
