

Silverton — Miss Colleen Johnson, daughter of Mrs. Velma Johnson of Silverton, whose engagement to A. Robert Schwartz, son of Mr. and Mrs. R. A. Schwartz of Salem, was announced this week. The wedding will take place at the Silverton First Methodist church on August 27.

### Former Mill City Girl Married

MILL CITY — Word has been received of the marriage of Miss Marian Delores McFadden of Corvallis, formerly of Mill City, to Thomas Calvin Gant of Bandon, son of Mr. and Mrs. Elmer Gant of Bandon, on June 25 at St. John's Episcopal church in Bandon with the Rev. C. W. Everton officiating.

Miss Jean Olmstead of Bandon was the honor maid and Miss Glend and Miss Gloria Gant, sisters of the groom, were bridesmaids. Susan Gant was flower girl. James Gant was best man and ushers were Duane McFadden of Corvallis, brother of the bride, and Robert Connors of Bandon.

The couple will be at home at Tanglewood, Bradley Lake, where the groom is employed by the Swift and Company plant at Sixes.

MILL CITY — Invitations are in the mail for the wedding of Miss Loretta Wesalowski, daughter of Mr. and Mrs. Raymond Wesalowski, and Andrew J. Meyerhofer. The ceremony will take place Saturday, July 22, at the Immaculate Conception church in Stayton.

## Cabinet Saves Space in Kitchens; Enamel-Topped Cabinets Are Grand

By Sue Gardner

When space is at a premium in a small home, summer cottage, or apartment, you usually find the kitchen is the tightest of all. For such dwellings, there is a new compact, attractive electric range and cabinet combination that will go a long way towards filling your cooking and storing needs while conserving on space.

The range has two three-heat electric burners at the back of a white porcelain top. The latter offers an excellent work table surface that is stainproof and easily cleaned with a damp cloth.

The base of the range-cabinet is finished in baked white enamel, and contains a spacious

drawer and two-compartment cupboard. You can easily obtain matching base and wall cabinets if you find you have more space available. The range-cabinet can be plugged into any outlet and no special wiring is required. It is designed for ordinary household 110 volt, AC current.

If you have adequate stove facilities and just want to add counter area and storage space to your kitchen or to your home laundry, you will find the porcelain enamel-topped cabinets inexpensive and very practical. The cabinets provide clean, sanitary surfaces for sprinkling, folding or stacking clothes and below-counter drawer and shelf arrangements to hold soap, bleaches, electric irons and other laundry supplies. In a kitchen you have many utensils and odd supplies that need the extra space this type of cabinet can provide.
