# Social News **Centers** on Travelers

### By Maxine Buren

Society editors take their vacations when news in their own realm is at a minimum, and those of us who take over the reins find, that social news centers around houseguests, travelers coming and going, and weddings. But the newsiest events aren't

necessarily the largest.

For instance, there's a no-host supper, planned by a group of friends of long standing for tonight, and inspired by a visit of Mrs. Thorne H. Hammond from Portland who will spend several days here with her parents Mr. and Mrs. Sam Boardman.

The group will have dinner at the Marion hotel, later going to the home of Mrs. Fred H. Gast in Manbrin Gardens for an evening

of conversation. Included in the group are Mrs. Clinton Standish, Mrs. Frederick Gast, Mrs. Howard Eismann, Mrs. Leighton Holler, Mrs. Wheeler R. English, Mrs. Carleton Roth, Mrs. Verne Robb, Mrs. Delbert Schwabbaer, Mrs. Roy Mink, Mrs. Law-rence Brown, Mrs. Ray Rhoten, Mrs. Thomsat Hill, Mrs. Lenard Kephart, Mrs. Ray Lafky, Mrs. J. A. Carlon, Miss Maria Dare, Miss Hattie Bratzel, Miss Hazel Shutt and Mrs. Hamond.

#### Susan Is Better

Mr. and Mrs. Edgar Pierce spent Sunday in Portland at the home of their son and daughter-in-law, the Richard Pierces. They visited their granddaughter, 91/2-year-old Susan, who fell from a tree some weeks ago, injuring herself critically. Mrs. Pierce reports that she is home from the hospital and improving. Friends, says Mrs. Pierce, have been so solicitous of progress should be welcome.

Mrs. F. G. Franklin and her daughter, Miss Dorothy Franklin of Los Angeles are visiting at the home of Mr. and Mrs. W. C. Franklin on Wallace road. They Dusen) in Napa. will be here about ten days.

Arriving by plane Saturday was Miss Mildred Cook, of Grand Rapids, Mich. who is staying at the home of her uncle and aunt, Mr. and Mrs. Jay Cook, and with Mrs. W. W. Graham in Portland. She will stay for the next three weeks. At the Cooks' last week was Mrs. Earl Sparling of Orange Cove, Calif., a sister-in-law of

Bradys to Be Hosts to Rosarians

Mr. and Mrs. Robert Brady will be hosts at their place, Half Pint Farm, on Garden road Thursday, to members of the Salem Rose Society. This is the regular meeting of the society.

The affair is to be a covered dish picnic, with coffee and dessert furnished by the committee. Dinner will be at 6:30, the meeting to follow.

## Dayton Folk Announce Plans

DAYTON - Mr. and Mrs. Jesse Woodward of Dayton announce the engagement of their daughter Miss Patty Ann Woodward to Neil B. Trammell, Forest Grove, son of Mr. and Mrs. George Trammell,

Miss Woodward is employed at the Mullikin Beauty shop in Mc-Minnville and Trammell is associated with the Standard Oil Co. in Forest Grove. They are planning a fall wed-

with a glass top and two half-

circle console pieces that can be

added for additional seating at

either end of the main table In

the group, which is of Italian or-

igin, a curvaceous tracery in wrought iron enhances two of the

dining tables, one circular and

the other oblong. Matching chairs

carry the design motif on the top

of the backs with arm chairs hav-

ing the same graceful, airy ef-

fect. Cushions of foam rubber

can be ordered for the chairs.

However, the metal mesh seats on

the chairs are shaped so that they

their annual picnie supper at Paradise Island, tonight.

Those attending will be Mr. and Mrs. Ed Boreing, Mr. and Mrs. Carol Ford, Mr. and Mrs. G. Wyncoop, Mr. and Mrs. Carl Jordan, Mr .and Mrs. Hal Randal, Mr. and Mrs. Ed Johnson, Mr. and Mrs. Robert Driscoll, Mr. and Mrs. Ralph Caley, Mr. and Mrs. Har-

## Picnic Sunday For De Molay

Members of the Order of De-Molay and the DeMolay Mothers club are sponsoring a picnic Sunday at Paradise Islands for members of the lodge and their families. The picnic committee will furnish beverages. Dinner is to be served at 6:30 o'clock.

## Sugar is Sugar

## **Canning Rules Include Heating of Dangerous Paraffin Over Hot Water**

## By Maxine Buren Statesman Woman's Editor

Probably most women now know, but we'll again verify it, that sugar is sugar, whether it be beet or cane. For all purposes, one is just as good as another, if of equal refinement, as they are equal chemically.

Canning equipment is a poor place to economize, because by gambling in inferior jars or lids, a good deal of material and time can be wasted.

In canning, never use flat lids or rubber rings two years. Be sure jars are without cracks, and that they are smooth around the top. If small chips are found when finger is run around the top, mark the jars and keep them for pickles that need not be sealed. Better to throw them away,

It's best to discard the flat part of the two-piece metal closures when the jar is emptied, then there's no chance of reusing them.

Also, always use the best product possible. Canning never improved the quality of the food, so use only the very best, soundest and most tender possible.

The dear old art of making jelly seems to have faded in some households, giving way to jams and preserves. But fruit still jells, just as it did for grandma, if we'll only go at it right.

Tart apples, currants, grapes, and such berries as boysens, youngs, black, loganberries and some plums have lots of pectin. You can really test for pectin if you want to. Pour 1 tablespoon of the prepared juice along with 2 tablespoons denatured alcohol into a cup. Move cup gently to blend the two. If a large clot forms, there is a large amount of pectin, if small scattered clots form, there is not enough pectin to make the liquid jell without the use of a commercially prepared pectin. Here's the method for making jell, if you have forgotten.

To soft, prepared fruits (don't peel or core fruits except quinces, which should be cored) add just enough water to prevent sticking, heat slowly, mashing to extract juices. Boil gently 10 to 20 minutes. Cover hard fruits with water and cook until soft.

Drain, let drip through cloth but do not squeeze (you can run some water through it later and use this thinner juice for beverages if you wish).

Measure juice and heat to boiling (don't cook more than 2 quarts jelly at once) add sugar, usually cup for cup, stir until dissolved then boil rapidly without stirring until jelling point is reached. To test, dip spoon into boiling jelly, tilt spoon so juice runs over side. When jelling point is reached, it divides into two distinct drops which run together and leave spoon in a large sheet. Stop cooking at this point. A thermometer will indicate a temperature of from 220 to 224 degrees according to the ripeness of fruit and ratio of fruit to juice.

Pour into sterilized jars after skimming jelly. Let stand until firm, then cover with thin coat of paraffin.

Let us admonish you, heat paraffin over hot water. One young woman was killed last summer when paraffin became over-heated and exploded. This would have been avoided if the paraffin had been kept over hot water. Accidents are never intended and care in canning matters is always well worth while.

**148 NO. LIBERTY** 

PGE is constantly aware of possible emergencies. Fate and the weather often play strange tricks on your electric service. Unforeseen things, like a skidding car crashing into a pole, or lines broken by ice and falling trees, or lightning striking vital equipment-all these contribute to unavoidable interruptions. But PGE is equipped to handle power emergencies swiftly, because of its many power sources.

In addition to its own 5 hydroelectric and 3 steam plants, PGE has 7 strategically placed interconnections with the Bonneville Power system. These varied power

sources assure PGE customers dependable service, for if service from one source is interrupted, the chances are the remaining sources can take over the load and keep your electricity flowing. All PGE customers benefit because PGE's power eggs are not all in one basket!

Yes, it's facilities like these, plus the skill and training of PGE's 1,600 Oregon people, that assure you the finest electric service possible.
