Improvement Of War News Boosts Stocks

NEW YORK, July 18—(AP)—Stock prices surged ahead today for the largest overall gain in more than two years.

It was the market's most powerful recovery since prices were hammered down following our intervention in the Korean war three weeks ago.

The advance displayed none of the fireworks which have distinguished recent sessions but at the final bell key issues were up \$1 to more than \$3 a share.

A major factor, according to Wall Street sources, was the striking improvement in the war news. Announcement of President Truman's credit restrictions on new housing came after the market had closed.

Trading volume was something of a disappointment at 1,820,000 shares, which compared with 1,520,000 Monday. In some of the market's high-speed declines since the Korean intervention, sales have gone from around 2,000,000 shares to above 3,000,000. Bullish-minded traders like to see volume expand when prices are moving up.

The Associated Press average of 60 stocks jumped 1.5 points to 72.4, steepest rise since May 14, 1948. The industrial and rail groups advanced sharply while utilities turned in a comparatively skimpy gain.

A total of 1,127 individual issues appeared on the ticker tape, of which 802 moved up and 156 declined.

Wheat Strong; Other Grains Take Losses

CHICAGO, July 18—(AP)—Soybeans dropped the 10 cent daily limit today, but wheat developed independent strength on mill buying against fairly heavy sales of flour.

At the finish wheat was 3/4 to 1 cent higher, corn was 1/2 cent higher to 1/4 cent lower, oats were 3/4 to 1/2 cent lower, rye was 1 1/2 to 1 3/4 cent lower, soybeans were 9 to 10 cents lower, and land was 30 to 50 cents a hundred pounds lower.

Sales of flour have been heavy during the past two days, milling interests said. It is estimated that more than five million sacks have been taken in the last two days.

Family brands of flour will be increased 10 cents at the opening of business tomorrow, mills announced. It was not said whether the increased buying of family brands reflects purchases by housewives influenced by Far East conditions. One chain baker is said to have covered requirements to April 1.

Pacific Mills Jump Prices

NEW YORK, July 18—(AP)—Pacific mills today increased prices on worsted fabrics for spring next year by 15 to 30 cents a yard. It was the second substantial hike by a large manufacturer in two days.

A spokesman said the price boosts were necessary because of the high costs of replacing raw woolen inventories, the same reason given yesterday by American Woolen company, which raised prices 12 1/2 to 17 1/2 cents.

The increases made it a certainty that men's suits next spring would cost at least \$2 over 1950 lines and some sources believed the retail prices on women's suits might be tagged \$2 to \$5 higher.

Some sources predicted further increases in worsteds.
