

Reuther Asks 100-Year Drive To Beat Reds

DETROIT, July 18 (AP)—A trillion-dollar, 100-year campaign to rid the world of communism was proposed today by President Walter Reuther of the CIO United Auto Workers.

Reuther made his proposal in a letter to President Truman, whose decision to defend southern Korea he lauded.

A "total peace offensive" under U. S. leadership was advocated by the union chief, who, at the same time, said we should have a "fully adequate military defense." His plan is similar to Mr. Truman's point-four program to help distressed countries help themselves, but much more extensive.

He outlined a proposed nine-point program to be carried out under United Nations sponsorship at a cost of \$13,000,000,000 a year to the United States. Over the 100-year program it would cost the U. S. \$1,300,000,000,000, which Reuther said was the cost of World War II to this country.

As a means of financing his plan, Reuther suggested that restoration of wartime tax rates on corporations would provide \$7,000,000,000 and said that wartime rates on incomes of \$15,000 or more would provide "a substantial part" of the remainder needed.

He also said that a large increase in revenue would result from putting enough people to work to produce \$13,000,000,000 in additional wealth.

Family of Dead Guardsmen to Get \$32,000

The state supreme court Tuesday ordered the state industrial accident commission to pay compensation to the widow and four children of an Oregon National Guard employee who was electrocuted.

The man, John M. McLean, was killed at Camp Adair March 30, 1949.

The national guard was covered by the state industrial accident commission. But the commission rejected the claim on grounds that McLean's job had not been declared hazardous.

Judge Fred McHenry of Corvallis ordered the claim paid, and the high court's decision upheld him.

The accident commission said McLean's family would get about \$32,000.

Hospital Worker Honored on Birthday

When Jim Hayward, long-time employe at Salem Memorial hospital, observed his 87th birthday recently, fellow workers at the hospital helped him celebrate by giving a surprise birthday party. Pictured at the dinner table, left to right, are Hayward, Margaret Sorenson, Gertrude Tripp, Lenora Balzer, Lenora Sirode, Marvel Mayers, Helen Peery and Esther Heller, all employes at Memorial.

Marines Ease Qualifications

The marine corps Tuesday announced modified physical requirements and relaxed restrictions for reserves returning to active duty.

Dental requirements have been lowered considerably and color perception is no longer essential.

Veteran members of the marine corps reserve with the rank of sergeant or below will be accepted for one year temporary active duty in their present rank.

Veteran marines not in the reserve prior to July 8 may sign for one year temporary active duty in the reserve. Former master sergeants and technical sergeants who have been out more than a year will be given the rank of sergeant and corporal respectively.

Men in this area affected by this announcement may obtain further information from the marine corps recruiting office in the Salem postoffice.

Golden to Enter Plea Saturday; Bail Reduced

John Golden, Salem jeweler, has been ordered to plead Saturday to a charge of molesting an 11-year-old girl at his store at 311 State st.

Golden, 59, who lives at 55 N. 20th st., appeared in Marion county district court Tuesday, formally charged with contributing to the delinquency of a minor.

He was arrested Monday by city police officers and signed a statement admitting that on Monday afternoon he took indecent liberties with an 11-year-old girl in a back room at his store. A complaint was signed by the girl's father.

Golden is free on \$1,500 bail which was reduced from \$3,000 by Judge Joseph Felton on a motion of Golden's attorney.

SAFEGUARD YOUR MOTOR

NEW TYDOL Compounded Motor Oil is heat-resistant to safeguard your motor

CLEANS—Tydol's detergency additive keeps your engine cleaner. It prevents the formation of carbon, gum and varnish that otherwise would accumulate on vital parts. It also removes deposits that may have formed previously, and through suspension, prevents them from settling out in the engine. This safeguards your motor.

PROTECTS—Tydol's oxidation inhibitor protects against bearing corrosion. Tydol's Dynamic Flow feature gives instant lubrication to all engine parts to protect all close fitting parts (bearings, cylinder walls and pistons)—means easier starting, low engine wear, less battery drain. It also prevents formation of harmful "Carbon Gravel" in the crankcase.

LUBRICATES—Tydol's low pour point gives instant lubrication even in cold weather. Its high viscosity index reduces oil drag—gives more engine power and lower oil consumption. Tydol is heat resistant and stable in service. This means longer life.
