### Throne Voted Leopold Again By Belgians

BRUSSELS, Belgium, July 20 (AP)—Parliament voted today to restore King Leopold III to the Belgian throne, opening the way for his immediate return from exile in Switzerland. Leopold may get in Saturday. Subject to approval by the monarch, the government arranged for military planes to fly to Switzerland for him and his 19-year-old son, Prince Baudouin. The legislators decided in an atmosphere of bitterness, issues debated bitterly among Belgians for 10 years, in war and in peace. "This thing is not finished," growled socialist ex-premier Paul-Henri Spaak, leader of the anti-Leopold opposition. "Now it starts upon another stage." The socialists have threatened non-cooperation, general strikes and other demonstrations against the 40-year-old monarch.

### Congress Gets To Work on Tax Measure

WASHINGTON, July 20 (AP)—Congress got to work today on a multi-billion dollar tax increase to pay for preparedness. Without waiting for President Truman's tax message, the congressional staff of tax experts began studying sources of new revenue. Their orders came from Chairman Doughton (D-NC) of the house ways and means committee which writes the tax bills. Mr. Truman's message yesterday he will ask for new taxes—how much he didn't say—to help finance the extra \$10,000,000,000 he deemed necessary to build defenses against communist aggression. He said new taxes would curb inflation and profiteers. His message asking the levies may go to congress next week. There was increasing talk of a stiff excess profits tax. Such a levy diverts to the federal treasury corporation profits above certain limits. Doughton gave this tax picture: 1. He virtually ruled out any prospect that tax boosts—on corporations or individuals—will become effective before next January 1. 2. He said an excess profits tax on corporations "is worth of serious consideration." 3. He guessed that the timetable on a tax-boosting bill will call for action probably in November or December, or possibly early next year.

### German Reds Pledge War Aid to Russia

BERLIN, July 20 (AP)—With the big bosses of the Cominform standing by, east German communists today denounced United States intervention in Korea and pledged to fight alongside Russia in any new world war. Overhead, there was an unexplained display of Soviet aviation. A flight of about 60 Russian fighters roared over the American sector at 3,000 feet. The incident may have been only a training maneuver, but formation flying over Berlin is contrary to four-power agreements. While the little Germans talked big at their most flamboyant communist party convention, the eyes of most western observers were fixed on their "honored foreign guests"—the Cominform delegates—who stayed silently in the background.
