It was a slow, difficult battle, which cost the leathernecks their first casualties of the Korean war. The attack was delayed by a red artillery and mortar barrage.

With the dawn, red shellfire in-

creased, temporarily delaying the American attack plan. Four P-80s, with wing lights blinking, began hunting for the communist guns. Duncan and I had left our fox-

holes and were talking in a dry river bed with Marine Brig. Gen. Edward Craig, who had just arrived by helicopter, when the reds began shelling the riverbed. Sev-eral tanks and big guns were emplaced there. We dived into gun positions as the communist shells raked the area.

One man raced across the area to another lying still and limp on the ground, raised him and struggled toward a building. A second shell rained dirt on them both.

The marines slid into the rice paddies, as if swept there by a giant wind and were pinned down. Soon a red-moustached marine, brandishing a carbine, reared up-right along the road and bellowed: "Get up, goddamit! They've fir-ed a hundred rounds and haven't hit anything yet. Are you ma-

rines? Get up and get going." Soldiers dug in on a hill west of us, blasted mortars and machinegun fire into the village from which the reds were shooting. Under that umbrella and the verbal lashing, the marines got up and plunged forward.

- Call Issued for Bean Pickers

A call for about 150 bean pickers went out Monday from the Salem office of the state employment service.

William Baillie, manager, said trucks would load pickers at the office, 710 Ferry street, at 6 o'clock this morning. He added that those wishing to drive out to yards may obtain information by calling the office, 3-9288.

Beans are in their third picking and are approaching the harvest peak, Baillie said. He expects the demand for harvesters to increase for the rest of the week. Picking price is 21/2 cents per pound.
