Yugoslavia Sends Handicrafts from Native Villages, Many Colorful Items

By Sue Gardner
Late this fall, you will see many unusual handicraft items for the home coming to your local stores from Yugoslavia. There is a great variety of colorful articles, because each province in that country has developed its own artistic hand-knotted carpets from Macedonian mountain villages, with 40,000 knots to a carpet, are among the traditional products. Persian type designs are worked in native wool and made for a long lasting floor covering. Lighter weight carpets will also be available from Bosnia, central province of the country.

Hand-woven carpets that can be used for wall ornaments or furniture covers, as well as for floor covering, come from Pirat and Zajcar and have patterns distinctive to the craftsmen of that area.

For the table, the Yugoslav craftsmen have made hand-worked coffee services in copper for two, four or six servings. These have inlaid patterns of gold or silver, and will make handsome holiday gift items, of the heirloom type.

Another gift item is the house slipper from Yugoslavia, called "priglavci" or "people's slipper," a native accessory for many centuries. They are ankle high, have soft thin leather soles, and are easily packed, which makes them good traveling shoes. Folklore from the different villages inspires the designs on these slippers, and colors are worked in gay combinations of beige, red and green for fleecy styles. Some villages make slippers of impregnated hemp worked in a circular pattern.

On Etiquette

By Roberta Lee

Q. If one is declining an invitation that it is impossible to accept, is it absolutely necessary to state why one cannot accept?

A. While it is not absolutely necessary, it still "softens" one's refusal of an invitation to give some logical reason for being unable to accept it.

Q. If a man has become engaged to marry, is it proper for him to tell all his friends before the girl has notified her friends?

A. No; it is the girl's privilege to be the first to make the announcement.

Q. When a woman's husband is a "Junior," should she also use this affix in her correspondence?

A. Yes, certainly.
