FALSE TEETH

Many wearers of false teeth have suffered real embarrassment because their plats dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Holds false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath), Get FASTEETH at any drug slore.
