The answers to everyday insurance problems *

By Sid Boise

QUESTION: If, in an emergency, I have the delivery man at my store use my private car for deliveries, does my ordinary Public Liability and Property Damage insurance protect me?

ANSWER: Yes, so long as it is an emergency and not your regular practice. If your car was used regularly for deliveries you'd apply for your insurance in a different classification.

* If you'll address your own insurance questions to this office, we'll try to give you the correct answers and there will be no charge or obligation of any kind.
