### **Excess Profits Tax Approved in House**

WASHINGTON, Dec. 5-(AP)-The house tonight passed an "excess profits" tax estimated to bring in \$4,600,000,000 from cor-

porations in 1951. The levy was approved and sent to the senate, 378 to 20. There Senator George (D-Ga), chairman of the tax-writing finance committee, told reporters he expects the measure to reach the White house for signature in some form before the New Year.

As approved by the house, the levy would be retroactive to last July 1-a few days after the U. S. got into the Korean war.

During the first 12 months of its operation it is expected to fall short of raising the full \$4,000,-000,000 asked by President Truman from a tax on "excess" corporate profits. But experts of the house ways and means committee, which framed the measure, estimated it would produce \$4,-600,000,000 in calendar 1951 on the basis of increased corporate

earnings expected then. Passage came soon after a substitute tax bill backed by republican policy leaders was defeated, 252 to 145. Only one democrat, Rep. Kennedy of Massachusetts, voted for the republican-favored proposal to shelve the winning

come levy of 45 per cent.

The substitute backed by rean increase of 45 to 50 per cent in the tax on normal profits, which it defined as 100 per cent for those years.

State Payday Brings \$10 Extra to Employes

State employes lined up Tuesday to eash their monthly paychecks in the state treasurer's office. Smiles were occasioned by the \$10 cost-of-living increase in the employe's monthly salaries. Most indicated that the increase would be well used for Christmas shopping. (Photo by Don Dill, Statesman staff photographer.)

### Communists in The Willamette Valley? There Aren't Many, But They're Here

(Editor's note: What is the communist status in the Willamette valley? That is what The Statesman wanted to know and wants its readers to know. Following is the result of a study of many sources. Some of the information is based on provable fact. Other is verified by the best possible sources. The Federal Bureau of Investigation was shown the story, almost verbatim, before its publication, it had "no comment.").

By Wendell Webb

Managing Editor, The Statesman There are active communists in the Willamette valley, at least a score of them. A dozen reside in or near Salem. They meet at members' homes, seldom at the same one twice in succession.

### But marine, navy and air force Discrimination **Due to Military** Status Rebuked

### 13 U.N. Nations Ask Reds to Stop At 38th Parallel

By Francis W. Carpenter

LAKE SUCCESS, Dec. 5 -(AP)- Thirteen middle eastern and Asian nations appealed tonight to communist China and North Korea to refrain from crossing the 38th parallel in their power drive against U.N. forces in Korea. The appeal pleaded for time to consider of ways to end the crisis in the orient.

The appeal was transmitted to Wu Hsiu-Chuan, head of the Communist Chinese delegation now in New York,

with a request that he send it at once to his government at Peiping. The plea was made by the U.N. delegates of India, Afghanistan, Burma, Egypt, Indonesia, Iran, Iraq, Lebanon, Pakistan, the Philippines Saudi Arabia Syria and Yemen. The Indonesian and Afghan delegates joined in the consultations pending instructions from their governments and added their names to the petition after learning from

The 13 countries acted as Canada's Lester B. Pearson suggested a cease fire, Secretary General Trygve Lie called for all out efforts to settle the crisis, and the steering committee of the U.N. sent the issue to the full assembly.

Pearson, Canada's external (foreign) affairs minister, speaking in Canadian broadcast shortly after the steering committee sent the assembly the case of communist aggression in Korea, said the talks should begin if and when the military situation in Korea is stabilized. These were among the rapid-fire developments in the U.N.: 1. The full assembly was called into an emergency session

tomorrow to deal with the steering committee recommendation. The Soviet bloc is expected to fight the committee action vigorously. 2. Lie, who has talked twice with Wu, said at a dinner in Lie's nonor that the nations must seek every honorable means to keep the conflict from spreading, to bring an end to the fighting, and to renew negotiations on the wider issues that divide the world. 3. Sir Gladwyn Jebb had lunch in his Riverdale (Bronx) home

with Ambassador Wu and his advisers. Pearson said he knew the policy he suggested would be called "appealement" but said it is not appealement. He said it is an attempt through diplomacy to reach a way of life with the Asian communist world. At the same time, Pearson called for stronger defenses

### Remains Underground Truman, Attlee Discuss 'Dunkerque' Possibility

WASHINGTON, Dec. 5-(AP)-President Truman and Prime Min ister Attlee talked today of "steps to be taken" in Korea under any set of circumstances including, it was reported, the grim possibility that a Dunkerque-type evacuation may eventually be necessary.

Officials emphasized that no such evacuation has been decided upon. They said the American and British leaders were canvassing

the question of what their course should be in case any one of three eventualities occurred: 1. The advancing Red Chinese hordes, for some reason, should voluntarily stop their forward progress. 2. Gen. MacArthur's forces should be able to hold a de Korea, about which there is no certainty.

3. The U. N. forces should find themselves unable to foothold at all in Korea. There were no further details, although officials said the president and prime minister were determined to support U. N. action is

#### avowed the assemblage when its Bradley Discusses Evacuation Plan

Gen. Omar N. Bradley acknowledged tonight that in secret testinony before the senate foreign relations committee today he had touched on the possibility of evacuating hard-pressed U. N. troops nism in the Willamette valley from the extreme northeast sector of Korea.

One senator who heard him had told reporters earlier that Brad-ley had said the recent withdrawals of U. N. forces had made it possible to evacuate them from Korea as a whole if the defense line could not be held. However, Bradley said tonight "any reference I made to evacuation was in connection with the hard-pressed troops in the extreme northeast sector which are now moving back to a concentration in a beachhead. "Any reports other than this are misleading and merely specus

lation," Bradley added. The general had appeared yesterday before President Trumen and Prime Minister Attlee to outline the military situation in Kerea. Afterwards high officials quoted him as saying that evacuation plans are ready if they have to be used.

#### In his statement tonight, Bradley made no reference to his re-marks at the Truman-Attlee conference. Re-Invasion Story Declared False

Presidential Secretary Charles G. Ross, who died suddenly soen after he talked with reporters, denied London reports that the president and the British leader agreed yestrday that Unitd Nations forces would re-invade Korea if they were driven out by Chinese

"It is not true," Ross told newsmen. "That did not come up at conference. There were no decisions reached yesterday."
A reporter asked if it was still intended that American troops and their allies should hold in Korea. "No comment," Ross replied. He said he could not discuss the

military situation in Korea. Tonight's brief communique made no mention of any agreement between Mr. Truman and Attlee on what moves should be taken to cope with the grim situation in Korea or elsewhere in the troubled

world picture. This was the second metting between the leaders of the two countries. Another session is scheduled for 11:30 a. m. tomorrew

#### White House. U. S., Britain in General Agreement

Chairman Connally (D-Tex) of the senate foreign relations committee told news men he had been informed that Mr. Truman and Attlee have reached general agreement on all major policy Connally said the agreement covered policies posed by allied questions.

At the Pentagon, an army spokesman said the retreat of American troops and their allies in Korea is orderly and "without panic."

The spokesman said allied forces, beset by vanguards of 1,000,000-man Chinese Communist army, are falling back with "relatively light" casualties and with most of their equipment.
