

Discrimination Charged by Hero of War

RAPID CITY, S.D., Jan. 20—(P)—A Sioux Indian who holds the nation's highest military decoration said today he was ordered from a cafe here because he is an Indian.

"I guess I'm not a hero any more," 31-year-old Clifford Bordeaux told a reporter for the Rapid City Journal. He was ordered out of the cafe when he sought to buy a cup of coffee, he said.

"It's a terrible thing to fight for freedom, and then come home to be discriminated against. Why is there discrimination against the Indians?" Bordeaux asked.

He suggested that merchants "remember that many Indians have distinguished themselves in the country's service" and added "many of my Indian brothers have died fighting in Korea."

Bordeaux won the medal of honor while serving with the First Cavalry in the Pacific during World War II. He is working for a construction company here.

As a member of a Rapid City national guard unit, he may be back in uniform soon.

Danger of Icy Roads Raised

The danger of slippery, icy roads cannot be overestimated, state traffic safety division officials declared.

Secretary of State Earl T. Newberry said the first step of self-protection for a driver is to realize that under such conditions caution must be doubled and speeds drastically reduced.

Stopping distances on snow or ice road surfaces, Newberry said, are three to 12 times greater than on dry concrete. On packed snow it requires nearly 300 feet or about 17 car lengths to stop a car traveling 40 miles an hour. On glare ice, at 30 miles an hour, a distance of 530 feet or 30 car lengths may be required, according to the traffic safety division.

Chains will reduce passenger car and truck braking distances by as much as 40 to 50 per cent, officials said.
