USAF Casualty **Claims** Climb Over 100,000

TOKYO, Sunday, Feb. 25-(AP)-The Far East air force announced today it has inflicted 100,000 casualties on the enemy since the start of the Korean war-more than two-thirds of them in the past three months.

Air losses were listed as a total of 152 personnel killed, 206 missing, three captured and 178 wounded.

Plane losses due to enemy action were given as 130 fighters, 15 bombers, eight transports and 12 miscellaneous craft, making a total of 165.

U. S. EIGHTH ARMY HEAD-QUARTERS, Korea, Sunday, Feb. 25-(AP)-An eighth army spokesman said today that U. N. ground troops in Korea have inflicted 133,760 casualties on Chinese and North Korean reds from January 17 through Feb. 20.

Eighth army communiques have claimed a total of 120,171 enemy casualties from ground action alone from January 25 through February 23. The spokesman did not try to reconcile the two sets of figures, nor did he say why his latest count dates from January 17.

The figure of 133,760 is the to have been killed, wounded or captured by the eighth army in include air force or navy claims, nor the thousands of reds who reportedly have died of typhus and other diseases.

The spokesman said the figures were only estimates and could not possibly be accurate.

He could neither confirm nor deny an announcement from the department of defense in Washington that enemy casualties since the war began totaled 624,000 through February 20.

"I don't know where they got it," he said. "We have no such total here."

Military men in Korea shrink from the mention of enemy casualties, protesting that no figures can be more than guesses.

Mac Charges **Reds Increase** Air Activity

By Stanley Johnson UNITED NATIONS, N.Y., Feb. 25-(AP)- Gen. MacArthur charged today that communist planes from "privileged sanctuary" the of Manchuria have increased their activity against United Nations aircraft.

Numerous battles involving up to 60 planes at a time have been fought just south of the Manchurian border, he said in his 14th report to the-United Nations.

Although the general said that as many as 85 aircraft have been observed at one time on the ground at the red base, Amtung airfield, just north of the Yalu John J. Fallin

river, he did not ask for permission to bomb it. There has been tremendous diplomatic pressure here against any U.N. action which might extend

the war into China proper. "The superiority of United Nations planes, tactics and pilots over those of the enemy has been re-peatedly proven in these encounters and the number of hostile

aircraft destroyed mounts slowly but steadily," Gen. MacArthur said. MacArthur said there are few pital following a heart attack. He
