### On Etiquette

By Roberta Lee

Q. When a man is entering an elevator with a girl, or getting out of an elevator, which one should precede?

A. He should allow the girl to enter first, and also to step out first, unless the elevator is crowded and he is in front of the door. In that case, he can step out first and wait for her.

Q. How and when does the bridegroom give his fee to the minister who performs the wedding ceremony?

A. The bridegroom should give the money or check (enclosed in an envelope) to his best man, who gives it to the minister after the ceremony, and of course privately.

Q. Is it considered proper for a woman to adjust her makeup at the table after dining in a public restaurant?

A. While formerly frowned upon, society has now relented enough to condone the repairs most women deem necessary to their lips and shiny noses after eating.
