Grain Prices Push Upward

CHICAGO, March 20—(AP)—Grains pushed upward at the board of trade today, on some new export business in wheat and a smaller corn acreage indicated for this year's crop.

Wheat reversed its opening trend early in the session. At the start traders sold on the strength of a government estimate on spring wheat acreage increase. However, the estimate was soon discounted on word of new export business and lack of rain in the dry sections of the southwest.

Buyers found offerings light in all pits and at the finish wheat was 2¼ to 2⅝ higher, corn was 2 cents to 2⅝ higher, oats were 1¾ to 2⅞ higher, rye was 2 to 2⅝ higher, soybeans were unchanged to 4¾ higher and lard was unchanged to 40 cents a hundredweight higher.

Stock Prices Drop Despite Buying Flurry

NEW YORK, March 20—(AP)—A last minute flurry of buying in air lines was not enough to budge a torpid stock market stock market today, and most prices remained depressed at the close.

Trading came to only 1,020,000 shares, the smallest session since Oct. 3, 1949, when 760,000 shares changed hands. And it was 100,000 shares under yesterday's extremely quiet day.

Losses ran to a low of $2.50 a share among the leaders with gains extending to around $1.50.

Airlines came to life late and added outside gains of nearly a dollar a share. Three of the 16 most active issues were airlines.

Dow, Jones & Co., business news service, in a review of operating possibilities said: "Almost every major air carrier is expected to be in black figures this winter. x x x The industry will be in the black for the first time in its history."
