After Easter

(This is the first of a series of seven scripture selections telling of the disciples and other followers of Christ after His resurrection, now commemorated in Easter, until the giving of the Holy Spirit at Pentecost, commemorated on May 13.)
MATTHEW 28:11-20

Some of the guard went into the city and told the chief priests all that had taken place. When they had assembled with the elders and taken counsel, they gave a sum of money to the soldiers and said, "Tell people, 'His disciples came by night and stole Him away while we were asleep.' And if it comes to the governor's ears, we will satisfy him and keep you out of trouble."

So they took the money and did as they were directed; and this story has been spread among the Jews to this day.

The 11 disciples went to Galilee, to the mountain to which Jesus had directed them. When they saw Him they worshipped Him; but some doubted.

Jesus came and said to them, "All authority in heaven and on earth has been given to me. Go therefore and make disciples of all nations, baptizing them in the name of the Father and of the Son and of the Holy Spirit, teaching them to observe all that I have commanded you; and lo, I am with you always, to the close of the age."

They will use the same application blanks and have the same charges as present money orders.

Human Ostrich Eats Hardware

LONDON—(INS)—The British "Medical Journal" reported the case of a "human ostrich" who was partial to metallic objects of diverse shapes and sizes.

Dr. J. C. McMullin, of Cayen, Eire, told about a 24-year-old laborer who was twice operated on for removal of foreign objects from his intestines. He said:

"On opening the abdomen, I felt what appeared to be a hard rubber tube. I gently inserted a finger and encountered what I first thought was a pair of forceps.

"It proved, however, to be a five inch wrench as used on bicycles. Exploring further I caught the end of tension spring, three inches long and half an inch in diameter. The lower end of the spring when withdrawn pulled out with it a three and one half inch steel twist drill and a five inch long bicycle wheel axle.

"Some hours afterwards, the patient remarked 'I am afraid there is still a bit of a hacksaw blade there yet,' so we fed him cotton-wool sandwiches and the blade was passed naturally after a few hours.

The doctor said that a previous operation on the man had removed a large double-headed bicycle wheel nut. He added that the man has since been discharged from the hospital, and had shown no abnormality, mental or physical.

Jewelry store sales in Oregon amount to more than 15 million dollars annually.
