

# Russia, China Said Agreed on Korean Policy

By Spencer Moss

TAIPEH, Formosa, May 6-(AP)—Reports put out in this Chinese Nationalist capital today said the Chinese Reds and Russia had concluded a secret agreement on new manpower to drive the United Nations forces out of Korea.

The reports are said to have come from underground sources on the mainland. Confirmation and more specific attribution are impossible. The reports declared the two main points of the alleged agreement were:

1. Red China would send an additional 600,000 troops to Korea; and
2. Russia would provide an "international volunteer force" of ten Soviet-equipped divisions for use in Korea.

Six of these international divisions, the reports said, would be composed of Japanese taken prisoner by the Russians during the last week of World War II; two would consist of Mongolian cavalry; and the remaining two would be drawn from Poland, East Germany, Czechoslovakia and other Soviet satellites in Europe.

The Nationalist sources which circulated this story said the agreement was made in Moscow after direct talks between Premier Stalin and the Chinese Red chairman, Mao Tse-tung.

# Tito 'Frees' 1,097 Political Prisoners To Build Rail Line

BELGRADE, May 6-(AP)—Yugoslavia today freed 1,097 political prisoners who were jailed on charges of supporting the Russian led communist.

The decree of amnesty was issued through Interior Minister Alexander Rankovic, boss of security police. The former prisoners will go to work—the official press reported—on a "volunteer" basis to prove their loyalty by building a railway line between Breza and Vares, two industrial centers in the Republic of Bosnia.

In telegrams of repentance, as quoted by the press, the prisoners recorded their loyalty to Tito, state and party and claimed they had been misled by propaganda from Moscow.

Wallace incurred a forehead cut that required four stitches. His parents are Mr. and Mrs. Ross Vohland, 1249 Elm st.

# Holds Fail to Protect Pretty Lady Wrestler

ROME Ga., May 6-(AP)—A tall, attractive blonde walked into the ordinary's office and announced: "I want a pistol toter's license."

"Why?" Ordinary Hillis Hollingsworth asked.

"I work at a restaurant," she related. "I get off late at night, and I walk about a half a mile to my home."

"Some men know what time I come by every night, and they've been bothering me. The other night, one of them grabbed me around the neck. I threw him over my shoulder, but he kicked me in the ribs and broke two."

Further questioning disclosed her name was Becky Taylor, her age 19, that she has been a professional wrestler — under another name—and that she had won 18 of 20 bouts.

Miss Taylor said she had figured she was able to take care of herself, until she got her ribs broken when she applied the hammerlock to the man the other night.

# Workers End Textile Strike

DANVILLE, Va., May 6-(AP)—Union workers voted late today to call off their five-week-old strike at Dan river mills, customarily the pattern setter for the southern textile industry.

By an almost unanimous standing vote, Dan river employees accepted yesterday's recommendation of the CIO textile workers union of America that the south-wide walkout of 40,000 persons be halted.

There was no immediate comment from Dan river officials, who only yesterday turned down a plea from Federal Conciliation Director Cyrus Ching that the wage dispute in the southern textile industry be submitted to a three-man mediation board.

# Booklet Tells How to Survive In Prison Camp

CHICAGO, May 6-(AP)—A handful of sugar is a weapon for sabotage, a clump of weeds is dinner, a canteen a pressure cooker.

These are tips on survival for the living dead of 1941-45, former prisoners of war in Japan and Germany.

Here are a few samples from a booklet, "How to Survive in a Prison Camp," planned by the American Ex-Prisoners of War, Inc., now meeting in Chicago.

All meat is edible, regardless of the kind of animal. And weeds and tree bark have food value, too.

Sometimes, the trick is in the preparation. A tin can makes a good stove. A canteen is a pressure cooker—especially good for cooking green things to prevent precious vitamins from draining off.

A little sugar ruins a gasoline engine—a simple way to sabotage enemy equipment.

A razor blade is a handy flint when matches aren't available. A man can drink, cook and wash with just a quart of water a day—if he knows how. (The ex-prisoners say the U. S. daily average per person is 300 gallons.)

Double up, and live. One man under one blanket may freeze in cold weather, but two men under two blankets stand a better chance.

BOY DROWNS IN POND VANCOUVER, Wash., May 6-(AP)—Robert Joe Butterfield, 12, drowned Saturday while swimming in a farm pond near here. A friend, John Harvey, 13, also of Vancouver, said he and Butterfield had crossed the pond and were swimming back when the boy disappeared. The body was recovered.

# 'Investigated' Pastor Chides Congregation

PORTLAND, May 6-(AP)—"Blessed are the peacemakers for they shall be called the children of God."

That was the text of the sermon preached here tonight by the Rev. Fred W. Mueller, pastor of the Laurelhurst Baptist church.

He told police recently a private detective had warned him to resign or face a scandal involving a woman Sunday school teacher.

Mueller told the congregation he had met the woman to discuss mysterious phone calls they both had received. They were approached by a detective, Mueller said, while sitting in his car at a drive-in restaurant.

The detective, it later developed, was hired by six members of his congregation.

"We've had some in our midst here the last month who were no peacemakers..." Mueller said, apparently referring to the six.

The congregation gave him a vote of confidence the text of which was prepared by the church deacons. It contained a statement that Mueller would leave the church soon to enter another field.
