

Keizer District Couple Surprised By Birth Unheralded Daughter

This was all of the Russell R. Sullivan family that was expected up until Sunday when a tiny third daughter was born at a Dallas hospital. From left to right are M/Sgt. Sullivan, four-year-old Sharon, Mrs. Sullivan, and Kathy, aged two. (Statesman photo.)

By Thomas G. Wright
Staff Writer, The Statesman

A young Keizer mother, who though she was suffering from an attack of appendicitis, has given birth to an unexpected child—her third daughter.

The three-months premature baby girl was born Sunday, Father's Day, at Bartell hospital in Dallas to Mrs. Russell Sullivan, 1133 Dietz ave.

The Sullivans, already parents of two charming blonde daughters, aged two and four years,

were entirely unprepared for the arrival of daughter No. 3. After the birth of Kathy, the doctor told the Sullivans it was doubtful if they could have another child. So minor illnesses were blamed to other causes.

The Sullivans were visiting at Mrs. Sullivan's parents at Falls City Sunday when she became ill. Because they were unaware the baby was due, the illness was blamed to appendicitis and Sgt. Sullivan rushed his wife to the hospital at Dallas. The baby was

born an hour after they arrived there.

The tiny new Sullivan was reported doing well Thursday in her incubator ward at the Bartell hospital where she will be kept until strong enough to face the outside world. So far her weight has not been recorded.

The family only recently moved to the Salem area when Sullivan was transferred here as assistant unit instructor for the Salem army reserves.

Youths Demonstrate As Iran Takes Over Oil Field Operation

By Robert B. Hewett

TEHRAN, Iran, June 21—(AP)—Nationalist youths battered down Anglo-Iranian oil company signs here today and parliament gave Premier Mohammed Mossadeq a unanimous vote of confidence to strengthen his hand in taking over

Present Tax Increase Bid Claimed Last

By Francis J. Kelly

WASHINGTON, June 21—(AP)—A democratic leader in the house predicted today that the pending \$7,200,000,000 tax increase would be the last big one, but this failed to mollify republicans. They assailed the bill as "disastrous" and "socialistic."

Chairman Doughton (D-NC) of the ways and means committee opened debate on the record-shattering measure, which is set for a house vote late tomorrow.

The bill is urgently needed to finance national defense, Doughton said, but he made plain he believes it is about all the economy can stand, despite President Truman's request for a total increase of \$10,000,000,000 or more.

Increase Doubtful

"I consider it unlikely," Doughton said, "that we shall be able to increase substantially the yield of the federal tax system beyond what is included in the present bill."

"I say this in all frankness and sincerity, for I consider it essential that we face up to the fact that any higher tax rates on either individuals or corporations or excises would be exceedingly burdensome and difficult to impose."

He opposed deficit financing as likely to cause permanent injury to the government's credit, and said that left one alternative: "To re-examine the scope of federal activities and to cut expenditures to the bone."

Read Condemns Bill

Rep. Reed of New York, the senior ways and means republican, condemned the bill as an authorization for "the bureaucrats to turn the taxpayers' pockets inside out." If it is approved by house and senate, he said, it will fulfill the dream of "the socialist planners within the Truman administration."

Rep. Kean (R-NJ) called it a "monstrosity," Rep. Curtis (R-Neb) "a disastrous blow to our economy," Rep. Martin (R-Ia) an ill-balanced and far too drastic measure.

Over a full year's operation, the measure calls for these increases:

- Individual income tax, \$2,847,000,000.
- Corporate income and excess profits tax, \$2,855,000,000.
- Excise taxes, \$1,252,000,000.
- Miscellaneous changes, \$245,000,000.

Individuals would figure their income taxes as at present, then add a 12 1/2 per cent defense tax to the total. A man now paying \$800 taxes would find his new bill \$900.

The show-down probably will come in the next few days at Abadan, the refinery center. There the British expect Iranian oil company officials will ask British technicians to sign agreements acknowledging they are employees of the Iranian government at the same terms they have had under AIOC contracts.

The confidence vote in the Majlis, the lower house of parliament, was 91 to 0.

The vote in the upper house was 41 to 0. There was one abstention in the Majlis; three in the upper house.

With none of the weeping and fainting that customarily marks his public utterances, Mossadeq declared quietly he will "proceed to take over the Anglo-Iranian oil company because the country demands it." He implied his nationalist followers might turn to violence if he lost the vote. There was no debate.

A throng of several thousand nationalist demonstrators hailed the confidence vote in parliament street.

Street crowds of several hundred cheered as a group of youths in a truck decorated with Iranian flags raided the company's Tehran offices and gasoline service stations this morning, hammering down AIOC signs and replacing them with placards bearing the name of the Iranian national oil company, a government agency.

Henry E. Tetz New Principal For Central

Statesman News Service

INDEPENDENCE, June 21—Henry E. Tetz, Morrow county superintendent of rural schools, has been appointed superintendent of the Independence-Monmouth school district 13C, it was reported here today.

Tetz replaces George A. Corwin, who resigned to go to Hood River. Appointment of Tetz came from district 13C school board. He will occupy his new position beginning July 1.

The new superintendent was recently elected president of the Oregon Education association. He formerly was principal of senior and junior high schools at Grants Pass and of the Pendleton senior high school.

He is a graduate of the University of Oregon, where he also earned his master of science degree. He is married, has a married daughter and an eight-year-old son.

Summer Here, And Hot Too

Shirt sleeves weather continued in Salem Thursday as summer made its official debut.

Weather bureau thermometers registered 88 at 5 p.m., one degree under the mark which Wednesday had given Salem its hottest record since last September.

Dry conditions and the heat increased fire dangers. Brush fires broke out in Salem, Salem Heights and near Jefferson.

Major Larson Named Salvation Army Head

PORTLAND, June 21—(AP)—Major Harry L. Larson will be the new Salvation Army divisional commander for Oregon and southern Idaho.

He was named today to succeed Major Roderic Durham, who resigned recently to become head of the Oregon chest.

COMMAND ACTIVATED

ROME, June 21—(AP)—U. S. Adm. Robert B. Carney, commander of allied forces in southern Europe, activated his command in Naples today.

REPORTS POLIO CASES

PORTLAND, June 21—(AP)—The state health office today reported five new cases of polio in Oregon last week.

THE WEATHER

Station	Max.	Min.	Precip.
Salem	88	67	0.00
Portland	85	61	0.00
San Francisco	89	66	trace
New York	88	69	0.25

Resigns

WASHINGTON, June 21—(AP)—Marriner S. Eccles, who resigned as a governor of the federal reserve system today, He had been at odds with the Truman administration's economic policies for a long time. A wealthy Utah financier, Eccles was one of the last top New Deal figures remaining in government.

Only 65% of Salem Cafes Satisfactory

Only 65 per cent of the utensils from Salem restaurants tested recently by the state board of health were satisfactory from a sanitary standpoint, the Marion county health department executive committee was told Thursday.

The mobile survey checked 77 establishments in the county, 48 of them in Salem. From the four swabs taken from each of three utensils—cup, spoon and glass—from each restaurant, the results showed 65 per cent satisfactory in Salem and 94.5 per cent satisfactory in the Silverton area.

Mrs. Bernice Year, nursing supervisor, reported that a time study for nurses of the department showed 29 per cent of their duty time spent in group activities, 28 per cent in visits to individuals in the office, 13 per cent in interpretation of department functions to community groups, 15 per cent on in-service education, 18 per cent in office routine.

Dr. Willard J. Stone, health officer, reported that tuberculosis control had resulted in tests to 2,414 persons during the first five months of 1951, with 216 showing a positive reaction. X-ray examinations have been given 289 persons.

10-Acre Slash Fire Controlled At Jefferson

JEFFERSON, June 21—A 10-acre slash fire was burning tonight on the M. O. Finden stock ranch property just east of the Jefferson junction on the Pacific highway.

State forestry crew leaders said the fire was under control but still burning at midnight. It had started in early evening at a small sawmill where workers had been burning slash at closing time.

A several hundred acres of timber and farmland surrounded the fire. A state forestry crew of 12 men plus neighbors and several volunteers from the Liberty-Salem Heights firefighting force worked for several hours to keep the blaze in check.

The sawmill on the Finden place is operated by Roy Brown and Joseph Watson of Aumsville and Harvey Mitchell of Jefferson.

Near Salem Thursday afternoon the Liberty-Salem Heights firefighters under Chief Norval Hiron put out a minor brush fire on a lot at 380 W. Madrona ave.

ARMY TO BUY BEEF

WASHINGTON, June 21—(AP)—The army announced today that it will buy up to 5,000,000 pounds of foreign beef to meet the immediate needs of U. S. troops overseas.

The original report was "probably destroyed" if it was ever actually prepared.

The New Hampshire senator refused to say who supplied him with a copy of the purported copy.

"It came from a person who stated that Secretary of State Acheson had misinformed the committee when he stated that the army was most anxious to get the Russians into the war against Japan because it was feared it might cost 1,000,000 American casualties to invade the Japanese home islands."

It was in return for Russia's agreement to enter the far Pacific conflict that secret concessions in the Orient were made to Soviet Premier Stalin at the Yalta conference in February, 1945.

Earlier in today's session, Maj. Gen. Patrick J. Hurley testified

Wage, Price, Rent Controls Passed By Congressmen

By Ed Creagh

WASHINGTON, June 21—(AP)—Banking committees of both houses of congress today approved short-term wage, price and rent control bills denying President Truman just about all the broad new powers he says he needs to check inflation.

The senate group ignored strong administration pleas and wrote into its bill a ban on any future rollbacks that would bring prices below the average of last Jan. 25-Feb. 24.

A few hours later, the house committee completed action on its bill—including a large number of amendments restricting Mr. Truman's control powers rather than broadening them as the president had asked.

Price Stabilizer Michael DiSalle said the senate rollback restriction "would disrupt and endanger the entire stabilization program" if it became law.

In a brief filed with both banking committees, DiSalle said the provision would cost consumers \$2,500,000,000 in price rollbacks presently planned.

The house committee cleared its bill by a vote of 21 to 5 after considering 73 amendments during the day.

One amendment added to the bill would permit war veterans to buy houses under GI legislation with down payments of six per cent or less provided the total cost didn't run over \$12,000.

Another would require the administration to consult with the house and senate armed services committees before acquiring certain kinds of real estate.

Chairman Spence (D-Ky) of the house group said he would try to get floor consideration of the measure started next Wednesday.

Neither the house nor the senate bill came close to giving the president all the authority he appealed for in his radio-television speech last week. The house bill would extend his control powers for one year, the senate bill for only eight months. Mr. Truman asked a two-year extension.

Settlement Reached in Coast Strike

SAN FRANCISCO, June 21—(AP)—The Pacific Maritime association announced it had reached an agreement at 11:25 tonight ending the five-day strike of the CIO American Radio association that has tied up west coast shipping.

The ARA members will go back to work at midnight tonight, the PMA said.

The PMA spokesman said the agreement provides wage increases and improvements in working conditions. He said the new contract would run for a minimum of two years.

The parties agreed to extension of negotiations to work out a west coast pattern for hours at sea, pensions and vacations, the shipping spokesman said.

State Liquor Man Bought, Hearing Told

PORTLAND, June 21—(AP)—Boodleggers paid a liquor commission lieutenant \$500 a month in order to stay open in Portland, a witness told the state civil service commission today.

Donald A. Schmidt, one of a group of liquor commission employees fired recently made the assertion in a public hearing the civil service commission is conducting on the firings.

His testimony contradicted that of Lloyd F. Johnson, former vice-squad officer for the Portland police. Johnson said yesterday that Schmidt lied when he told a grand jury that information on the payoffs came from Johnson.

Schmidt asserted that the information did come from Johnson. He said Johnson disclosed in a private conversation after Schmidt assured him he would keep it private.

Schmidt testified that in the course of grand jury questioning he had to disclose Johnson's name and the reported pay-offs.

Schmidt said he then went to Johnson and told him he had to disclose his name.

Johnson "hit the roof," Schmidt said, asking, "What was the man afraid of? ... it was secret testimony."

He said Johnson then asserted he was going to his superiors and it would be "plenty rough on me."

"Why didn't you report this to your superiors?" asked a liquor commission attorney.

Feared Job Loss

"Because I'm not as stupid as I look," said Schmidt. "If I had told them about their fair-haired boy, the Gestapo chief, I would have been fired. As a matter of fact, I was fired."

The attorney asked Schmidt if he had direct knowledge—something beyond any report from Johnson—of payoffs to a liquor commission staff man.

"None that I can prove," Schmidt said.

State Police Capture Two Pen Escapees

Two state prison trustees were captured and a third escaped Thursday, state police reported.

Clifford P. Wilcox, 34, committed from Lane county and John Elmer Cooper, 34, from Curry county, who escaped Wednesday, were captured near Independence Thursday night. A third trustee, Glenn Lee Gibson, escaped from the prison annex sometime Thursday afternoon.

Wilcox and Cooper readily gave themselves up when State Patrolman Robert W. Dunn recognized Cooper. Dunn said they were walking along the road near the Independence bridge.

They said they had hidden under the bridge all day where they found clothes in a knapsack. They walked to the bridge Thursday morning.

Escaping from the annex Thursday afternoon was Glenn Lee Gibson, 23, serving a three-year term for larceny. He was a trustee and was committed from Douglas county in August, 1950. Prison Warden George Alexander said Gibson was not dangerous.

Top Military Intelligence Warning Against Russian Inclusion in Pacific War Claimed

WASHINGTON, June 21—(AP)—Senator Bridges (R-NH) said tonight a group of top military intelligence specialists apparently warned in April, 1945, that bringing Russia into the war against Japan would destroy China and end in tragedy for Korea.

Bridges submitted a purported copy of the group's report at a late session of the senate inquiry into the firing of Gen. Douglas MacArthur as Far East commander.

Among other things, the report said that if Russia entered the Pacific war, China would lose her independence and become the "Flind of Asia" and Korea would become "the Asiatic Rumania."

Bridges said he had asked the defense department to investigate, and had been informed by acting Defense Secretary Robert Lovett

Pringle Neighbors Provide Home for Victims of Blaze

Statesman News Service

PRINGLE, June 21—An elderly couple and their daughter were burned out of their home early today but were back in housekeeping tonight, thanks to the generosity of neighbors.

With everything they owned, except a refrigerator, sofa, mattress and some clothing burned when the 3 a.m. fire burned their four-room house to the ground, Mr. and Mrs. George A. Pense and their 40-year-old daughter are now living in the Pringle woman's clubhouse, supplied with articles donated throughout the day by neighbors.

Friends in the area planned to meet at the clubhouse at 7:45 p.m. Friday to donate household articles and clothing to the homeless family.

The fire, which started in the kitchen of their small home, was discovered by Mrs. Pense. While

Puget Sound Crash Kills Five Airmen

SEATTLE, June 21—(AP)—Five of 10 navy airmen aboard a patrol bomber were killed shortly before noon today when the big, four-engined plane crashed in shallow water of a tide-created mud flat on Puget Sound.

Four of the five survivors escaped with minor cuts and bruises. The fifth was seriously injured.

Their names were not immediately available.

The PB-4Y2, based at Seattle's Sand Point naval air station, plunged into the shoals of Skagit bay about 11 a.m. PDT (1 p.m. EST) on a training flight.

The crash scene was approximately 50 miles north of Seattle in the bay ringed by Whidbey and Camano islands and the mainland.

Wreckage was spread over a wide area, but the bomber's wings remained intact and the five survivors crawled atop them to await rescue.

An unusually low tide made it difficult to reach the plane from the landward side across the mud flat. A coast guard helicopter ferried the injured men to the Whidbey island naval air station 11 miles away, and navy crash boats brought out the bodies of the five fliers who were killed.

The patrol bomber was on its way back to Sand Point when it went down.

The 13th naval district said the survivors had not been interviewed on the possible cause of the crash. A naval board of inquiry began an immediate investigation.

The patrol flight was part of the training program for naval reservists stationed at Sand Point after being recalled to active duty.

Armor Patrols Drive Into Koesong Twice

By Don Huth

TOKYO, Friday, June 22—(AP)—Eight army tank-infantry patrols rolled twice into Koesong, northwestern gateway to Seoul, on Thursday as allied forces girded for a possible limited offensive by communist troops next Monday on the first anniversary of the Korean war.

The patrols stabbed into the battered highway junction in a driving rain before dawn and again in late afternoon without opposition.

Enemy rifle fire, however, splattered the tanks south of the city on their way back to allied lines. Infantrymen reported about 1,000 communists were dug into the hills to the northwest.

Koesong is four miles south of the 38th parallel and 35 miles northwest of Seoul on the main highway leading to Pyongyang. The last remaining communist forces south of the old political boundary are in that sector.

It was the first major ground activity in almost a week along the western front.

In the center and eastern sectors of the 100-mile Korean front, allied task forces continued aggressive searches for Chinese-Korean red concentrations.

United Nations patrols roamed easily ahead of allied lines. Officers said the foe apparently was trying to lure units into a false sense of security while massing for an attack.

Three Killed In B-29 Crash

CIBOLO, Tex., June 21—(AP)—Five men parachuted to safety and three were killed in a B-29 Superfortress which crashed and burned five miles northeast of here today.

The five were saved because the pilot gained altitude with a flaming engine and gave them a chance to jump.

Officials at Randolph air force base reported the number of dead and saved. The five who jumped were under care at the station hospital.

The plane was on a routine training flight. As it pulled over the field, the left outboard engine caught fire. The pilot radioed the operations office that he would gain altitude to allow crew members to parachute. The crash followed in a few minutes.

Names were withheld pending notification of kin.

MOUNTAIN ERUPTING

MANILA, Friday, June 22—(AP)—Mount Hibokhibok on Canigun island in the southern Philippines erupted yesterday and a lava stream was sighted on the northeast slope.
