Care in Washing, Ironing Makes Nylon Last Longer, Simple Rules

By Sue Gardner
 The popularity of nylon lingerie has led it to become one of the mainstays of the average American woman's wardrobe. There are many new styles in nylon lingerie for the fall and winter markets, ranging from spun rayon snuggles to sheer peignoirs. To get the most wear and comfort from these styles, there are a few simple rules to follow in their maintenance.

Most women buy nylon articles because they want a time saver in laundry work and an economical long wearing garment. Sometimes they are fooled in thinking nylon does not need a thorough washing because it sheds dirt quickly. Actually it should be hand washed often, and occasionally put in the washing machine for a more complete laundry job.

If the garment has delicate lace, gathers or unfinished seams you think might ravel in the machine, put it in a pillow case when you wash it in the machine. However, many of these

garments are sewn carefully with nylon thread and probably do not need this precaution.

White nylon should not be washed with colored garments or even light pastels, if you want to avoid discoloring. Dinginess might also result from improper rinsing or pressing with a too-hot iron. A water softener will help do the job well. If you use a bleach follow directions for cotton on the bottle but do not boil as this might leave stubborn wrinkles in some nylon fabrics.

When ironing keep the iron moderately warm at the rayon mark of 275° F. The nylon lingerie comes in tricot, taffeta, crepe and satin with only the snuggles made so far of spun nylon. If you find nylon tends to be too warm for the climate you are in, ask for one of the fabrics woven with a porous feature.

On Etiquette

By Roberta Lee

Q. If a man is seated with a girl at a nightclub table, and sees another man at another table whom he would like especially to introduce to his girl, is it all right for him to conduct the girl to his friend's table?

A. No, I would be much better if he excused himself, went over to his friend's table and brought him back to his own table to be introduced.

Q. What would be some appropriate kind of music I could have for my wedding, which is to be in my home?

A. Nothing could be more beautiful than the phonograph records of organ and choir especially available for weddings.

Q. Is it all right for a man to accept a cigarette offered to him by a woman?

A. Yes, this is perfectly all right.
