FALSE TEETH

That Loosen Need Not Embarrass

Many wearers of false teeth have suffered real embarrassment because their plate dropped, slipped or wobbled at just the wrong time. Do not live in fear of this happening to you. Just sprinkle a little FASTEETH, the alkaline (non-acid) powder, on your plates. Holds false teeth more firmly, so they feel more comfortable. Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug store.

Jar of Peaches 40 Years Old

PARKERSBURG, W. Va.–(AP)–Ralph Lowers, an employee of the American Viscose corporation's rayon plant here, ate on his 40th birthday the other day some peaches his grandmother canned the day he was born! The peaches had darkened over the years, but Mr. Lowers said they were still prime and tasty.

The half-gallon jar of white clings was cherished because it was the last jar Lowers' grandmother, Mrs. Margaret Geibel, canned before her death. Lowers ate them this summer only because the rubber ring was getting soft.

Select Stocks Sends Market To New Highs

NEW YORK, Sept. 20–(AP)– A terrific rush for a handful of stocks today sent the stock market up to a new 21-year high.

Railroads were easily the outstanding major group but they received little support from other sections of the market except on the basis of strength in individual issues.

The Associated Press average of 60 stocks advanced 40 cents to $100.60, a new 1951 high and the best level in 21 years.

Today was the second straight advance after two-day fall from the previous 1951 high of last Friday.

Trading emphasis was on stocks in the advancing column, but actual count there was an almost even division between gains and losses.

Paramount Pictures made a sensational 6-point jump at 33⅝ and was the day's most active issue with 63,000 shares traded.

Buyers rushed into that issue after a demonstration of a television tube designed to pick up any known type of color telecast as well as black and white. The rights to the tube are held by Chromatic Television laboratories, a Paramount subsidiary.

Corn Contracts Draw Buyers

CHICAGO, Sept. 20–(AP)–Buyers went for the deferred corn contracts with quite a bit of gusto on the board of trade today, sending those futures up 2 cents and more and imparting a generally firm tone to the entire market.

The market's trend was upward for almost the entire session. Its only moment of nervousness came right after the opening, when some selling developed in wheat. This apparently was based on improvement of prospects for renewing cease-fire negotiations in Korea.

Wheat closed unchanged to 1⅝ higher, corn ⅝-2¼ higher.

Trade circles heard that Mexico was in the market for around 1,000,000 bushels of hard wheat and some hedge lifting of futures may have been put through in anticipation of that sale.

Weather was not favorable for harvesting wheat in the Canadian provinces.
