Don't Look Now ...

but . . . among the great unsung heroic women of our times are wives of after dinner speakers who smile at just the right places and sigh or weep at the speaker's remarks.

Time and place . . . and by the way, the designer who first placed a clock on the wall of the banquet hall just opposite the speaker's table was a man of vision.

Old cry . . . Oh well, might as well blame the weather on the Truman administration, something's to blame, this isn't October, it is April.

Lovely to see . . . Today we saw a little girl skipping along the lane with her dog at her heels. And as we had thought that the pleasing custom of skipping had gone out with long black stockings, this little girl renewed our hope in the world. Since little girls can still skip along the lanes with a certain joyous air about their movements, perhaps the world is just the same as it used to be too. . . . Maxine Buren.
