

How Your Tax Dollar Is Split

Out of the 1951-52 taxes which Marion county property owners are paying currently, schools receive 63.5 per cent, according to the assessor's office. This chart shows that cities, general county activities, the courthouse fund, roads, fire protection and conservation projects follow in order of demand.

By Winston H. Taylor
Staff Writer, The Statesman

Schools take 63.5 per cent of Marion county's 1951-52 tax dollar, but only about one-seventh of the registered voters decide how much money schools will get, according to tabulations by County Assessor R. (Ted) Shelton.

Last summer 3,533 persons voted for and 1,393 against the \$2,777,903 in levies approved by districts. The county has approximately 37,000 registered voters, all eligible to ballot on school taxes.

In addition there are the regular levies of non-high districts, the combined rural elementary and high school districts, the county school fund of \$235,680 which has heretofore come from state income tax receipts, and the county school library fund. Altogether school levies add up to \$3,397,604, out of a total county levy of \$5,346,825.

Here is how other demands on the tax dollar are proportioned:

Cities—Total of \$779,592, of which \$687,456 is Salem's levy.

County—General functions like law enforcement, jail operation, offices, utilities and most salaries, totaling \$672,124.

Roads—Income from state gasoline tax, sale of lands and sale of timber provides for all development of county roads, but market roads require a levy of \$162,006.

South Keizer special road district levies \$966 this year.

Courthouse—Two levies are

accumulating funds for building the proposed new courthouse, with officials still hopeful of starting next year. A 10-year levy garners \$75,000 annually within the 6 per cent limitation, while a special two-year levy voted in 1950 brings in \$175,000 per year.

Fire—The several rural fire protection districts have taxes totaling \$74,137. In addition a forest patrol tax on an acreage basis for 70,757 acres given protection totals \$6,085.

Conservation—This includes \$1,543 for Salem Heights water district, \$488 for Miller drainage district, \$427 for Woodburn-Hubbard drainage district and a reforestation tax of 5 cents per acre on lands classified for forest growth, or \$1,736.

British Radio-Isotope Sales for Medicine

LONDON—(AP)—Sales of British radio-isotopes are soaring. This year sales have reached 1,338 shipments in the first seven months.

Last year, 1,291 packages of radio-active isotopes were shipped from the finistry of supply's atomic pike at Harwell, Berkshire.

The cost of this year's shipments was about \$84,000. They are used for medical treatment and research, replacing radium which would have cost \$700,000.

'Scrapers Rising Fast in New York

NEW YORK—(AP)—So many new skyscrapers have been built in New York since the war that few New Yorkers know their own famous skyline.

To familiarize the man in the street with new buildings, the realty firm of Cushman & Wakefield, one of the nation's largest, has opened a contest by placing pictures of 36 new commercial buildings in its office windows.

Twenty-three cash prizes totaling \$1,000 are offered for identification of the buildings together with the best essay of 100 words on "Why Manhattan is the ideal location for an office."

FISHERMAN'S LUCK

FT. WILLIAM, Ont.—(AP)—Believed the largest lake trout caught in district waters this year, a fish caught here by C. R. Strachan weighed 32 pounds, 6 ounces, and measured 42 inches long.
