### Vatican Said 'Not Anxious' About Envoy

BOSTON (AP) — Francis Cardinal Spellman of New York said Sunday the Vatican "would like to have an ambassador but isn't anxious about the matter."

The prelate made the statement after completing a 30-day, 28,000-mile trip which included a stay with combat troops in Korea.

He arrived at Logan International Airport aboard a trans-Atlantic plane. Cardinal Spellman told newsmen that many people outside the United States "are unable to understand why there is any protest against appointment of an ambassador from this country to the Vatican."

Referring to reports that a protest march was planned for Tuesday in Washington by opponents to the Vatican appointment, he said:

"I suggest that it would be much more helpful if all those planning to parade donated a pint of blood to the fighting men in Korea."

He did not elaborate on his comment about the Vatican not being "anxious" about the appointment.

The Cardinal said he found troop morale in Korea "high, despite their trying conditions."

"The attitude of our boys in Korea is inspiring," he said. "They quite naturally, want to come home, but not before the job is done."

### Senators Talk About Changing GI Pay Boost

WASHINGTON (AP) — Sentiment grew in the Senate Sunday for some major revisions of a House-passed bill to boost the pay of all armed services personnel by 10 per cent.

"It's a very expensive bill," chairman Russell (D-Ga.) of the Senate Armed Services Committee told a reporter. "It would cost nearly a billion dollars additional a year. We've got to examine it very carefully, and some committees are proposing numerous changes."

The military pay hike would go to the more than 3,700,000 persons expected to be in the active forces of the Army, Air Force, Navy, Marines, Coast Guard, Coast and Geodetic Survey and Public Health Service during the next year, as well as to retired personnel.

It passed the House by a top-heavy 269 to 89 vote. Senator Hunt (D-Wyo.), a member of the Armed Services group which is considering the bill, said:

"More than 300 million dollars of the estimated \$32 million increase would go to less than five per cent of the personnel. Some of us are considering larger increases for the lower-ranking men and their dependents."

### Single Clash Mars 'Twilight War' in Korea

SEOUL, Korea (AP)—A 10-minute exchange of fire on the Central Front was the only clash reported along the entire 145-mile Korean ground front Sunday.

It was one of the quietest days since the "twilight" war set in last November, as Allied troops maintained position and patrolled.

In the air, two Communist MIG fighters were shot down by U. S. Sabre jets in another 10-minute encounter, high over Northwest Korea Sunday.

It was the sixth straight day of jet combat. The two Reds were downed when a flight of 18 U. S. Sabres tore into a formation of 60 MIGs north of Sinanju, near the Yalu River frontier of Manchuria. Both Communist pilots parachuted out of their falling planes.

The Fifth Air Force also continued daily hammering of Communist rail lines and supply facilities Sunday. Headquarters said 479 sorties were flown by 6 p. m.

In South Korea, government troops killed an estimated 800 Red guerrillas and bandits and captured 301 in the Chiri Mountain sector in a series of 33 skirmishes Friday and Saturday. The cleanup drive is now in its second month.

The Communist communiqué claimed a 3,000-ton Allied warship was sunk off the West Coast near Ullju, 20 miles southwest of Chinnampo but failed to give any supporting detail.

George E. Emigh, Salem, state civil defense training and education officer, was among the 31 western representatives of civil defense to complete a two-week course at the Western Training Center of the Federal Civil Defense Administration recently.

### Argentina's Wheat Crop Prospects Poor

BUENOS AIRES, Argentina (AP)—The prospects for Argentina's wheat crop this year are poor and are causing wide concern among wheat buying countries of the world.

The current wheat crop is estimated at about three million tons, which would be insufficient for the Argentinians themselves. In 1950, the last year for which complete figures are available, Argentina exported 2,767,000 tons of wheat.

The shortage is blamed on a second successive year of drought, plus low plantings which are said to have been induced by the government's restrictive price policy.

### Senator Asks Cut In Costs Replace Increase in Taxes

WASHINGTON (AP)—Sen. O'Connor (D-Md) said Sunday that instead of raising taxes Congress must cut federal spending.

In a statement expressing his "vigorous opposition" to President Truman's request for an additional \$400 million to five billion dollars in taxes, O'Connor said:

"Congress must make a determined effort to cut this amount, and more, from whatever non-defense spending is proposed in the federal budget."

He also called for redoubled efforts to prevent waste in military spending.

President Peron has already warned the nation that the harvest is "almost totally lost."
