Business Offices Get Directories

Distribution of the new edition of the Salem City Directory continued here Tuesday.

Most of the distribution is to business firms and public offices which contracted in advance for copies of the expensive publication.

Salem Chamber of Commerce has a copy on file and available for reference by chamber members and others at the chamber office in Senator Hotel. Salem Public and Oregon State Libraries also will have file copies of the new directory.

Fire Chiefs to Meet in Medford

The 32nd annual conference of the Oregon Fire Chiefs Association will be held in Medford May 26-28, Chief W. P. Roble of Salem, secretary of the Association announced Monday.

It will meet in conjunction with the Rural Fire District Directors Association, holding its third conference. Harold Rosebraugh of Liberty-Salem Heights, is secretary of that group.

Among tentative discussion topics Roble said, are civil defense, rural fire district protection problems and gas masks and their use.

A meeting will be held in Portland Feb. 26, to work out the final agenda of the meeting.

Postal Office Vacancy in South Salem

Request for a new postal contract station operator in the South Salem suburban area was issued Tuesday by Postmaster Albert C. Grace.

He said Hale Mickey had resigned as clerk in charge after conducting a station in his market on South Commercial Street for about two years.

Bids will be accepted until Feb. 7 for operation of the station, which handles parcel post, stamps, money orders and registers, but not mail distribution. Additional information is available at the Postoffice.

Appliance Store Changes Location, Plans Celebration

Grand opening of the Tinkham Gilbert Appliance Company in its new location at 260 Liberty St. (formerly Paramount Market) is scheduled for Monday. To accommodate their customers they opened for business starting Tuesday.

The new building is larger, more adequate for display of merchandise and more convenient for customers, according to Gilbert, than the basement store of the R. L. Elstrom Company where he was located the past few years.

Meet the Most Challenging New Car of the Year and for Years to Come!

the New 1952

MERCURY with MERC-O-MATIC Drive

CHALLENGING NEW 125 H.P. HIGH-COMPRESSION V-8

Here's the new stepped-up successor to the engine which for two straight years won top class honors in officially sponsored economy tests. This year—even more efficiency, greater horsepower, and better power-to-weight ratio. It's high-compression, V-8 power at its best—by the company which has built more V-type engines than all others combined.

*Optional at extra cost.

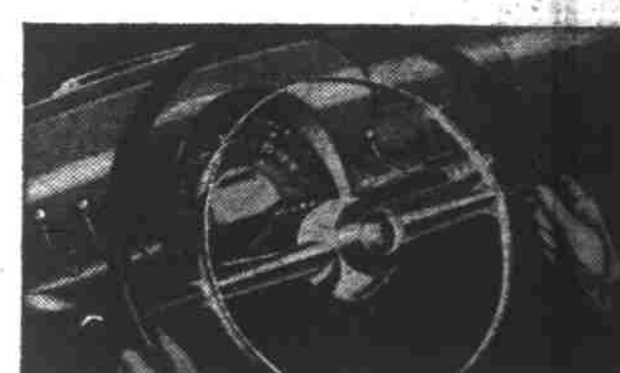

FEAST your eyes on this, America. Mercury has done it—brought you a really new 1952 car that's far, far ahead... that stands as an even greater challenge to the motoring world than last year's Mercury, one of the most popular cars that ever came down the American Road.

Your first look begins to tell you why. For here's something entirely new in car design... swift, clean lines that sweep from the new "Jet-scoop" hood (inspired by the smartest European cars) to a strikingly new rear deck design. Here's styling made possible for the first time in automotive history by revolutionary new

techniques in metal engineering. But wait till you feel the stepped-up pace, the steady balance of this beauty. There's more power—125-horsepower high-compression V-8—greater pickup, and even better efficiency. And that's saying plenty when you think of the prize-winning Mercury performance of recent years.

So hurry on down to our showroom. Be one of the first to see, drive, and own the car with the "future features" today... the challenging new 1952 Mercury.

Standard equipment, accessories, and trim illustrated are subject to change without notice. White side wall tires, when available, at extra cost.

CHALLENGING NEW FUTURE FEATURES

No other car on the road offers so many advanced features for your comfort and convenience. Features like the up-front, "quick-right" Interceptor instrument panel, matchless Merc-O-Matic Drive, suspension-mounted "Floor-Free" brake pedal, and the centralized "Hide-Away" gas cap for easy fueling from either the right or left. It's your look today at the cars of tomorrow.
