How new green Chlorodent strikes at the very causes of **TOOTH DECAY**

Chlorodent reduces the amount of mouth acids that "eat" into tooth enamel... helps combat bacteria causing these acids... keeps your teeth so clean that bacteria find it difficult to lodge and multiply on them.

How new green Chlorodent combats common **GUM TROUBLES**

An estimated 50% of all tooth loss can be traced to conditions which start with sore, bleeding gums. Brushing your teeth with Chlorodent helps keep gums in healthy condition and combats common gum troubles.

**WHAT IS NATURE'S GREEN CHLOROPHYLL?**  
Chlorophyll is the magic green substance in all living things which transforms the sun's energy into life-giving nourishment. Dentists use chlorophyll preparations as a deodorant and aid in repair of tender gums.
