"ILL WINDS" OF MARCH TAKE BIG TOLL IN ILLNESS!

Even during "non epidemic" years, 146 out of every 1000 people will come down with common colds or bronchitis! Surveys show that upper respiratory diseases such as colds and flu lead all illnesses.

You can help avoid the sickness that raw, windy March weather brings. Prevent diet deficiencies by taking vitamins regularly.

If illness should strike, bring your doctor's prescription to Owl.
