

ARMED WITH COURAGE—Armless Helen McNab, 17, works at her special desk in Brewster, Minn., High School. She does so well her classmates have ceased to be amazed by her.

New Runway At U.S. Base

TRIPOLI, Libya (AP)—Wheelus Field, big U. S. air field near here, is putting finishing touches on an 8,000-foot runway that will be able to handle America's biggest warplanes, including atom-bomb carriers.

Col. Fred O. Easley Jr. says the new runway is part of an improvement program. The field represents one of Libya's biggest industries. Last year's payroll for native employees was \$325,000.

"Our relations with the Libyans are excellent," says Col. Easley, "and we hope to keep it that way. They have been especially cooperative."

Water for Sale 10 Cents, Pail

MONTREAL (AP)—With one of the world's largest rivers, the St. Lawrence, at their doorstep, housewives in the town of Ville Jacques Cartier buy drinking water at 10 cents a pail.

Backyard pumps freeze up in winter, and well-water becomes too muddied for drinking. The great river itself is frozen solid at this point.

Waterman J. A. Peladeau has been supplying the community for seven years. He himself buys the water from an aqueduct in a nearby community and carts it in a tank on his truck.

Holiday For Irish Held on March 17

DUBLIN, (AP)—St. Patrick's Day—March 17—is one of Ireland's three big holidays. The others are Christmas and good Friday.

Although both a legal and religious holiday—it honors the saint who converted Ireland to Christianity—the celebrations resemble those in the United States on the Fourth of July, with parades and political speeches.

Irish pubs are closed on the three holidays, and in all the length and breadth of the Emerald Isle there's but one place to legally toast its patron saint: the Annual Dog Show at Bell's Bridge outside Dublin.

A steering oar is considered more effective for small boats than a rudder.

Champ Couple At Penning

LAWTON, Okla. (AP)—Sgt. Barrie I. Posey and his wife are claiming the letter-writing championship of the armed forces.

In seven months, Mrs. Posey has penned 940 airmail letters to her husband stationed in Germany. The sergeant is no slouch, himself. He's written 572 letters during the same period.

Mrs. Posey has averaged about three or four letters a day. Chief topic is their 3-year-old daughter, Teresa.

And, if all of those letters weren't enough, the Poseys telephone each other occasionally.

MUSICIANS WANTED

BISMARCK, N. D. (AP)—There's a band here which is short clarinet players, but no rush is expected to fill the jobs. Warden Oscar Nygaard says the North Dakota Penitentiary band has about 25 members now. The boys are showing much improvement lately, but the clarinet section is weak and needs more personnel.

Superstition Will Allow Porpoise In Fresh Waters

KITTY HAWK, N. C. (AP)—An old superstition among seafaring folk is preventing the annihilation of a school of ocean porpoises in lower Currituck Sound.

The playful and sleek porpoises, which usually live only in salt water, recently moved into the fresh waters of the sound. Commercial fishermen report they are seriously interfering with their take of fish. One old-timer estimated that a school of 20 porpoises consumes about 6,000 pounds of fish daily.

Superstition says to kill a porpoise is "as unlucky as walking under a dozen ladders."

DUMMY SCARES MOTORISTS

ROCKFORD, Ill. (AP)—Frightened motorists called police on a recent Saturday night to report seeing the body of a man hanging from a railroad viaduct.

Police cut it down. It wore a mask and was fully dressed, including hat and shoes. It was a dummy.
