Fast, Low-Cost Airfreight Service for

SALEM

Effective May 1, 1952, the Flying Tiger Line, Inc., will inaugurate its new nationwide airfreight service for shippers in the Pacific Northwest. This service will include door-to-door delivery overnight to the Midwest and second-day delivery to the East Coast. In evaluating this new service, remember: Airfreight is NOT air express—it's a lot cheaper and as fast or faster.

Airfreight offers many other advantages. Because it is safer and practically jolt-free, insurance rates for airfreight are much lower, while substantial savings can be effected on crating (many commodities which must be heavily protected for surface shipment go virtually without packaging by air).

Because most markets can be reached within 24 hours by air, your sales capital can be turned over much faster, you avoid terminal tie-ups, your warehousing costs are practically eliminated. Further, airfreight shipments in transit can be located with far greater ease through our simplified teletype manifest system.

Keep up with air-minded competition by speeding up your sales, service, and distribution via Flying Tigers Airfreight. Phone today for complete information.
