

Neo-Fascists Gain Votes in Italy Election

ROME (AP)—Italy's Democratic government bloc was leading Tuesday in Rome's provincial election, but trailed a Neo-Fascist-Monarchist alliance in the big port provinces of Naples and Bari.

These incomplete returns may or may not reflect the outcome of simultaneous elections for the control of municipal administrations in these cities and about 2,400 other municipalities in Italy. The provincial vote is being counted first. Almost all campaigning has concentrated on the municipal balloting.

The provincial voters picked administrative officials in the provinces, areas whose functions are a cross between those of U. S. states and county governments.

In the city voting, coming in more slowly, Premier Alcide de Gasperi's Christian Democratic party, with alliances constituting a centrist bloc, had won control of 152 administrations early Tuesday. The Communist and pro-Communist Socialist alliance had won 48, and the Neo-Fascist Italian Social Movement (MSI) and its monarchist allies five.

Archer Stops Clock Again

EUGENE (AP)—Eugene's mysterious archer has stopped the clock a third straight year.

An arrow protruded from the center of a pylon clock, mounted high over the May and Mead parking lot in downtown Eugene Monday. The clock was stopped at 6:30 a.m.

The clock bears a strong resemblance to a target. The first time it happened parking lot attendants guessed that the archer could not resist temptation.

Since then it has happened once every spring.
